'Cloud first' strategy is set. How to get things done?

Today's enterprises realize the need for shifting towards a 'Cloud first' approach. However, the Central IT needs to run and maintain the on-premises infrastructure while establishing a parallel cloud environment. We help our customers to find the best approach for their business to put the cloud first strategy into action.

Challenges

- Cloud platform is not available or was implemented on an ad-hoc basis
- Resources and expertise in cloud migration is lacking
- Datacenter service and location contracts are expiring

Ideal Solution

- Cloud platform ready to start migration and deployment of workloads
- Secure and scalable platform design that satisfies increasing number of services and workloads running in the cloud

Desired Outcomes

- Reduced Time-to-Market
- Higher availability of services for employees and customers
- Increased reliability of services by leveraging geo-redundancy
- Reduced capital expenditures

Campana & Schott. Azure Setup.

Our mission is to jointly build a **scalable** and **secure** cloud platform in Microsoft Azure. We enable you to gain **quick wins** from fast deployment of use cases while building a backlog to work on the **long-term** development of your **cloud business**.

Achieve a ready-to-use platform faster

- Convince your stakeholders by deploying first use cases with real business outcomes
→ Lighthouse projects
- Leverage our best practices based on standard Microsoft Frameworks to minimize manual, repetitive and error-prone activities

Don't be overwhelmed

- Microsoft Azure offers a vast portfolio of services – we guide you along the key design decisions
- We enable your team to successfully manage day-to-day operations in the cloud

Facing the Future

- It is a journey, not a single project: Azure Platform Setup
- Our consulting approach considers your long-term objectives: Attractive cloud service portfolio for your business, efficient deployment processes and skilled cloud service teams

Strong partnership. Azure Setup + Microsoft Azure.

Microsoft's long-standing partnership with Campana & Schott has proven as key success factor in many projects before. We combine Microsoft's Azure service offerings with our consultancy approach to build up a ready-to-use Cloud Platform. We support clients from medium-sized companies to global enterprises.

Platform design + Microsoft Cloud Adoption Framework

- We define your objectives for building a cloud platform with Microsoft Azure
- Cloud Adoption Framework Design Areas are evaluated and adjusted to your objectives

Platform setup + Microsoft Azure

- Together with your team we implement landing zones, policies and resource hierarchies
- Microsoft's reference architecture 'Enterprise scale' serves as starting point for customization to your needs

CS Azure Setup Handbook + Microsoft Azure

- We help you to formulate requirements for your cloud platform considering primary stakeholders
- Requirements and operational guidelines are documented and communicated to train your cloud adoption and operation teams

Customer success: Enriching the Modern Workplace with Microsoft Azure

As a global player in the retail business our customer was facing the challenge to quickly deploy cloud services supporting his large workforce of frontline workers in distributed markets across the globe.

Ready to-use Azure Platform

- **Ready-to-use** within several weeks
- **Fast Time-to-Market** - realization of business use cases and enhancement of digital workplace
- **Customized** - Resource hierarchy and landing zones are mapped to the client's organization in order to facilitate accounting and governance

Skilled cloud workforce

- We trained the internal IT in essential skills, terms and techniques of the Azure platform to exploit the platform's potential
- We developed a roadmap of additional use cases which leverage Azure services and fit into to the client's Digital Workplace strategy

Tangible business outcomes

- Store workers read global company news in the newly developed Azure app which connect a geographically-dispersed workforce
- As central landing page in Microsoft Teams offers information about assignments, department news and tasks due. The website is hosted in Azure.
