

Cloud backup – a missing part of the complete data protection.

Atende is one of the leading capital groups in the IT sector in Poland. 29 years ago we connected the first Polish companies to the Internet. Since then, every day we build the success of our customers with the latest and most advanced solutions in the field of IT infrastructure and innovative software. An increasingly important part of our business is cloud computing and managed services. As a group consolidating eight companies, we provide comprehensive IT systems for the most important market segments: telecommunications, energy, public administration, media, finance and healthcare.

Atende Cloud Backup

RELIABLE CLOUD BACKUP

Atende Cloud Backup provides reliable cloud protection for all your on-premise data. The service is fully managed by Atende. You can forget about tape libraries and expensive storage systems to keep your archives safe. Your valuable data are always safe and protected – in the cloud.

WHAT WE PROTECT

Atende Cloud Backup service protects a wide range of workloads and applications both from bare-metal servers and virtual environments. It provides granular application level protection for popular database engines, Office 365 service and personal computers.

TOP AZURE EXPERTISE

Together with Microsoft Azure we provide reliable and convenient offsite data protection. Your data are end-to-end protected with encryption, both in-transit and at-rest as well. For your comfort and convenience our solution is fully managed by backup and cloud experts available 24x7.

BETTER TOGETHER

Microsoft Azure is the foundation of Atende Cloud Backup service. Microsoft builds services that meet the highest standards of security, privacy, compliance and transparency. Atende is responsible to configure and manage these services properly to ensure verified backups.

“The digital transformation uses digital technologies to create competitive advantage and meet market requirements. With exceptional data growth and increased data breaches, our information is at risk. The digital transformation has to cover all aspects of data protection.”

– Krystian Barabasz, Atende S.A.
