AzureReady Health Check

Ensure your environment is running optimally to keep performance up and costs down

Microsoft Gold Partner

About Our Services

Does your company currently have resources deployed to Azure? Are you unsure how to ensure your environment is running optimally to keep performance up and costs down?

3Cloud will review the state of your cloud adoption to identify critical issues and make sure that the environment is configured properly, backed up, secure, and running optimally.

3Cloud's AzureReady Health Check is designed to evaluate an Azure environment's cost, security, scalability, and manageability.

We check the health of your Azure cloud infrastructure and operational practices. 3Cloud will provide a prioritized set of recommendations to accelerate your Azure adoption using our extensive experience with cloud data and infrastructure.

Engagement Outline:

- Review the current state of your Azure environment against 3Cloud and Microsoft best practices

- Assess existing Azure configurations

- Review existing Azure networking and connectivity

- Provide Azure storage options for compliance and future growth

- Evaluate approach to security, operations, and management for environment controls

- Prepare and deliver AzureReady Health check report and suggest optimization remediations
