IT SOLUTIONS

## How Do We Do It?

This is where we give you a taste to how we manage and educate to ensure your business understands the power of IT and Microsoft. We know what it takes for your business to flourish; our aim is to provide just that.

1

### Using SharePoint to Ensure Smoother Hiring

We can teach companies to use Microsoft 365 as a means for allowing all new employees to easily onboard into a new organization.

2

### Using Teams to Ensure Smoother Communication

We organize and educate on Microsoft Teams to support increased collaboration to manage projects and sharing of files and information for enhanced work productivity.

3

### Using Microsoft 365 to Ensure Smoother Updates to the Cloud

We teach and specialize in upgrading clients from legacy systems and processes to cloud offerings in Microsoft 365

## **Our Success With The Children's Guide Alliance**

The organization wanted an efficient way for schools and staff to locate information, policies, and standard operating procedures during the COVID-19 pandemic. Our Solutions provided the following services to make sure that their business needs were met:

### **Working With Teams**

Provided a Microsoft Teams solution with announcements, documents organized into appropriate channels based on strategically mapped out information architecture.

### **Working With SharePoint**

Developed and leveraged SharePoint apps for calendar of events and links to resources to enhance smoother organization of content and strategic planning.

# Our Success with Snowbird Consulting Group

Keeping track of projects across an organization can be difficult. Reducing the risks of new projects brought into the organization's environment can be even more challenging to manage. Our services made sure to address these issues diligently:

## Project Sites in SharePoint

Initially, Snowbird Consulting Group engaged with Seisay IT Solutions to create a Project site template for a consistent means of recreating the same content structure when new projects are created for each of their clients.

## Increased Productivity Offered

This engagement then turned into Seisay IT Solutions providing Snowbird Consulting Group with Microsoft 365 licenses, Microsoft Teams calling plans and auto attendant capability, Microsoft Teams training, and additional Microsoft 365 Support for all their staff.
