

**Thinking ahead.
Seeing beyond.
Building together.**

From Fortune-500 companies to startups, we work alongside organizations to accelerate their progress toward a digital future. MillerKnoll, Stryker, Hennepin Healthcare, Caterpillar, Dematic and many other clients have worked with OST on projects including:

Strategy and Insights

Understanding your consumers' needs, defining where you're headed and helping you make data work harder for your organization.

Connected Products and IoT

Designing, building, managing and optimizing smart, connected products and the infrastructure that supports them.

Cloud Solutions

Strategically assessing, implementing and managing cloud solutions that deliver the most value, security and speed for your business needs.

Digital Experiences

Creating compelling experiences with web and mobile applications, product configurators, data visualizations and much more.

Managed Services

Streamlining and optimizing your team's workload by managing infrastructure, applications, devices, special projects and other technology so you can focus on what matters most for your business.

We help companies leverage technology to do what they do best — even better!

We're ready to drive growth and success for your organization.

If you need authentic experts who will roll up their sleeves alongside your team, you're in the right place. With deep, cross-functional expertise, OST helps organizations learn more about their consumers, align stakeholders and fully leverage technology to gain a competitive advantage.

OST's primary offices are in Michigan and Minnesota, and we have team members working across the nation. We've been recognized for excellence across the breadth and depth of our expertise, including in Inc. Magazine's 5000's Fastest-Growing Private Companies, in CRN's Tech Elite 250 and as a National Best and Brightest Company to Work For.

What guides us? Simple.

Honor

Honor our people and their families first, clients second and the rest will fall into place.

Delight

Delight our clients with every touchpoint.

Serve

Serve our teams and clients with humility.

Embrace

Embrace innovation and entrepreneurship.

Learn

Learn through curiosity and empathy.
