

Microsoft Teams Rapid Startup

Enable Workforce Collaboration

Business transformation is happening at an unprecedented pace - forcing companies to modernize their technology to enable a workforce that is working from home, in the office, and everywhere in between. As companies evolve, they face increased demand to quickly implement an enterprise communication and collaboration solution.

With Microsoft Teams your business can reduce cost and manage risk while realizing the value Microsoft 365.

- **Secure** platform, authentication, and data management
- **Meetings** conducted in one place, eliminating duplicative tools and insecure technology
- **Calling and Video** to connect team members
- **Compliance** configurations to ensure the system is set up to meet your requirements
- **Chat** to engage employees
- **Coauthoring** to support secure document collaboration
- **Centralized communication and Team formation** to keep everyone in the loop and support collaboration

3-WEEK TEAMS RAPID STARTUP

Our **3-Week Teams Rapid Startup** engagement focuses on preparing your organization for a rapid deployment of Microsoft Teams.

We have distilled our best practices from numerous Teams implementations into a streamlined three-week project to get customers up and running as quickly as possible on Teams.

Incorporating key components such as Compliance, Governance, Adoption and Change Management, and Rollout, we can help you get started with Teams as quickly as possible.

The Centric Difference

MICROSOFT GOLD COMPETENCIES & MICROSOFT FASTTRACK READY

Our approach is based on Prosci & Microsoft Service Adoption models, Forrester and Gartner best practices, and our technical expertise gathered from successful Microsoft Teams implementations.

Our 3-Week Rapid Startup Approach

Our Microsoft Teams 3-Week Rapid Startup offering focuses on three main areas, **Technical Readiness, Organizational Readiness, and Deployment Plan**:

TECHNICAL READINESS

Focused primarily on IT and Security & Compliance, our technical readiness program includes:

- Office 365 Tenant Assessment
- Deployment Workshop
- Governance Workshop
- Teams Configuration
- Network Readiness

ORGANIZATIONAL READINESS

Focused primarily on business decision makers and key stakeholders, our readiness activities include:

- A Customer Immersion Experience (CIE)
- Adoption Workshop
- Organizational Readiness Assessment, including stakeholder interviews
- Meetings Workshop

DEPLOYMENT PLAN

Using the output from all other project activities, we will:

- Develop a Teams Deployment Plan
- Develop an Adoption Plan
- Provide Deployment Assistance
- Deploy a Knowledgebase Repository for Teams Materials
