

Microsoft Azure Infrastructure: 2-Hours Briefing

Primary Product: Azure

What is it?

This is an IT consulting service offered by Cloudica to help organizations understand and optimize the use of Microsoft Azure cloud services.

Who is this service for?

IT professionals, consultants, and administrators who are responsible for managing and supporting Microsoft Azure infrastructure can all benefit from this service.

Microsoft Azure Infrastructure: 2-Hours Briefing

Primary Product: Azure

What are the benefits?

The benefits of this service include:

- Gaining an understanding of Azure infrastructure setup and configuration.
- Seeing how Azure resources can be deployed and managed effectively.
- Gaining knowledge of Azure security services.
- Understanding and managing Azure costs.

Outcomes of the briefing:

At the end of the service, our customers will be able to better understand their Azure environment and what is required to make it better. These include:

- setting up and managing an Azure environment,
- understanding the different Azure services available,
- how to optimize the cost and performance of Azure services.

Steps and Agenda:

- Introduction to Azure Services.
- Azure Management Tools and Best Practices.
- Azure Security Best Practices.
- Deploying and Managing Applications on Azure.
- Optimizing the Cost and Performance of Azure Services.
- Q&A Session.
