D365 Supply Chain Management

Dynamics 365 Supply Chain Management is an intelligent solution that automates and optimizes all aspects of the supply chain from production to transportation through AI, machine learning, and mixed reality. With end-to-end visibility of your warehouse operations and inventory, it enables businesses to predict future outcomes, reduce costs, and increase product quality.

Microsoft Catalyst

Microsoft Catalyst is a proven and powerful methodology to value identification. As part of a Catalyst engagement, meet with our team of Supply Chain Management specialists, integration engineers and analytics consultants for a roadmap workshop.

The scope of the engagement starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable blueprint of how you can reach your business goals.

How Rand Group can help

Supply Chain Roadmap Workshop

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.
