Dynamics 365 Project Operations

Dynamics 365 Project Operations enables you drive project success and profitability by empowering your team to win more contracts, optimize resource utilization, accelerate project delivery, and get business insights from sales to project financials. Get the visibility, collaboration, and agility needed to drive success across your project-centric business—from prospects to payments to profits.

Microsoft Catalyst

Microsoft Catalyst is a proven and powerful methodology to value identification. As part of a Catalyst engagement, meet with our team of project operations specialists, integration engineers and analytics consultants for a roadmap workshop.

The scope of the engagement starts with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear, actionable blueprint of how you can reach your business goals.

How Rand Group can help

Project Operations Roadmap Workshop

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.
