AZURE SECURITY AND HEALTH ASSESSMENT

Softcat

Ensuring your Azure environment is secure and running efficiently by identifying potential security risks and cost savings.

HOW DOES THIS SERVICE WORK?

Technical consultants armed with industry-leading tools work to uncover hidden areas of risk, assessing your Azure environment to understand your concerns and pain points. We evaluate key areas of your environment to identify potential improvements and then focus on how to resolve them. This ensures that your workloads are aligned with the Azure Well-Architected Framework best practice for cloud. This deep dive workshop offers detailed recommendations and suggested actions to remedy these challenges, offering cost savings and a robust security stance, as we hold an Advanced Specialisation in Cloud Security.

BENEFITS TO YOU

People

Keeping your cloud environment efficient and secure can take a toll on your business workloads. Our technical experts will work with you to understand how your IT team manages your Azure environment and make recommendations on where you can increase productivity and streamline processes.

Platforms

Our Azure experts will work with you and make recommendations to ensure your business has minimum disruption to your user's environment, as well as a more resilient and secure IT infrastructure.

Commercial

A poorly configured cloud can lead to unprecedented costs and security risks. We take the strain out of the process, with technical skill and experience to pinpoint potential cost savings. Our experts will then offer recommendations based on the areas of improvement discovered, ensuring you have a properly maintained and protected environment.

SUITABLE FOR YOU IF...

✓ You want to make the most of your cloud environment

✓ You are concerned about potential security breaches

✓ You are looking for cost savings within your Azure environment

✓ You need a robust plan to make efficiencies within your Azure environment

✓ You are looking to expand your Azure footprint and want to ensure that the existing environment is built to best practice

WORKS WELL WITH

Microsoft 365 Security Assessment

Providing an audit of your Microsoft 365 and Office 365 environments against industry security benchmarks.

Azure AAA Service

Simplifying your cloud journey with a standardised, automated deployment of Azure with transparent costs.

Microsoft 365 Security Essentials

Kick-starting your Microsoft 365 security position, aligning with industry best practice standards.
