Secure and Reliable
Remote Desktop Pro leverages the power of Citrix with Azure Virtual Desktop so you can easily extend your compliance, security, and business requirements to the cloud – keeping your data and your clients' data safe.

Easy to Use
Remote Desktop Pro with Citrix provides Citrix HDX technology for high-def user experience; and simplifies remote connectivity to virtual workloads on Azure.

Easy to Manage
Remote Desktop Pro with Citrix enables; performance & security analytics; workspace environment management; Citrix HDX; hybrid cloud management; session recording; Citrix provisioning; and more.

Expert Implementation
Cornerstone.IT is a Microsoft Gold and Citrix Platinum partner.

We install, configure, and test your customized Azure Virtual Desktop with Citrix Cloud. We set up and manage your Cloud subscriptions and apply available discounts and incentives so that you get the best fit subscription.

Cornerstone.IT is **compliant** and maintains strict adherence to the **NIST 800 171** standards.

WHAT OUR CUSTOMERS ARE SAYING

"When I started as Chief Information Officer at the national law firm of Bond, Schoeneck & King in 2018, I had a clear mission: to improve operations, create more efficient work processes and develop better collaboration connections for the firm's 500 employees in 10 different offices. With so many opportunities and tools, you really had to create a strategy to prioritize your work. Implementing a cloud-based virtual desktop infrastructure (VDI) for remote access was a consideration. Cornerstone.IT worked with us to find a solution that fit our needs, Windows Virtual Desktop (WVD) on Azure with Citrix. They performed a proof of concept (POC) that showed the value of WVD with Citrix. I am now confident in Cornerstone's expertise in helping us find the best way to successfully meet our business needs."

- Joe Fousek, Chief Information Officer, Bond, Schoeneck & King

Microsoft Azure

CORNERSTONE.IT

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow.
With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With more than one billion dollars invested in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
