

The Cloud Adoption Framework is Covered in Our Kickstarter

Azure Kickstarter Timeline

Week 1

Week 2

Week 3 and Beyond

Getting to Know You

Understanding YOUR Business:

- Review application assessment
- Participate in CAF Workshop
- Working Session to understand pilot environment design
- Landing Zone working session
- Cost benefit analysis

Planning Your Journey

> Deliverables:

- Deployment of Landing Zone Lite
- Cost benefit analysis and report provided
- Deploy pilot environment (AppService or VM)
- Support you through application migration

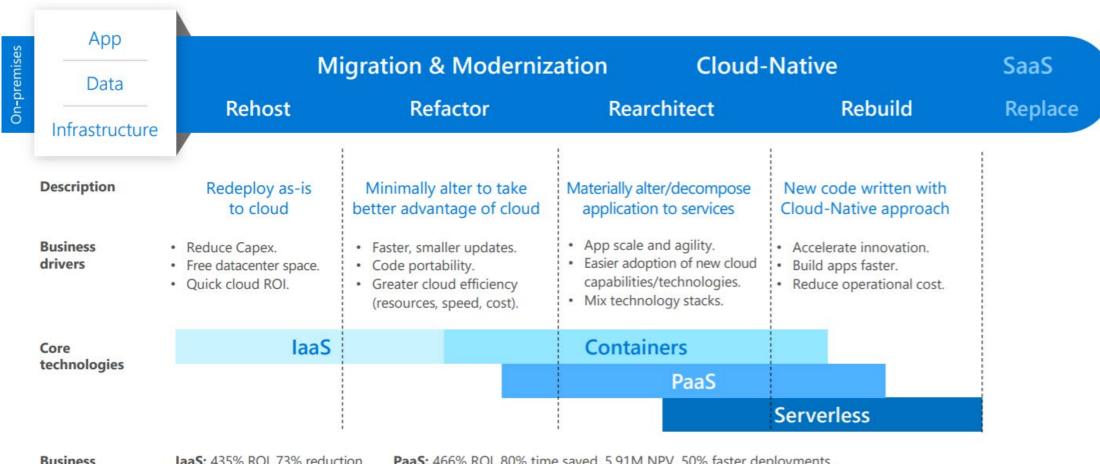

Setup For Success

What is next?

- Once we deploy our Landing Zone and Migrate your application successfully we discuss next steps on your Azure Journey
- A cost benefit analysis can be used as a template to work from
- The kickstarter is your first step in a successful digital transformation! Lets do this together!

Understanding Your Options: Application Migration or Modernization?

Business results

laaS: 435% ROI, 73% reduction in datacenter footprint and 83% reduced IT outsourcing cost.
