Insight

# Microsoft Viva Insights Proof of Concept

Business challenge

Microsoft's Viva Insights delivers data-driven, privacy-protected insights and recommended actions that improve productivity and well-being. In today's increasingly complex and hyperconnected workplace, it is more important than ever to understand employee productivity and well-being in your organization. Viva Insights helps you foster a culture in which both people and business thrive.

How we help

Our certified professionals can help you take the first step toward understanding how Viva Insights can improve employee experience in your organization through a five-week Proof of Concept (PoC).

We begin with a workshop that builds a vision for Viva Insights and discovers business scenarios that it addresses. We will then lead you through configuration and enablement to provide initial analysis of results and recommendations that contribute to employee engagement, productivity, well-being and manager effectiveness, along with a plan for deployment to the rest of your organization.

What to expect

Weeks 1 and 2

Conduct Employee Experience With Microsoft Viva Insights Workshop.

Perform discovery and plan for PoC for 500 users or up to 20 groups that includes configuration and analysis and an action/response plan.

Weeks 3–5

Configure Viva Insights Premium Analytics and deployment of Viva Insights Teams app.

Analyze collaboration metrics focused on employee well-being, engagement, productivity and management effectiveness.

Share results of analysis, perform rework of organizational data if needed and deploy plan of action based on results.

Provide recommendations for the rollout of Viva Insights organizationwide based on results of the PoC.

Deliverables

- Viva Insights analysis presentation
- Adoption response plan
- Gap analysis and deployment plan

Five-week professional services engagement including project management ~$60,000

Benefits

- Understand what Viva Insights means to your organization in a controlled environment.
- Develop roadmap for deployment of Viva Insights throughout your organization.
- Define adoption and plan of action based on results.
