# KORUS CONSULTING: ASSESSMENT

Fit-gap analysis for effective roll-out of Microsoft  
Dynamics 365 for Finance and Operations

## About us

An IT company providing IT consulting, IT outsourcing and business process automation services. Since 2000, more than 1100 projects have been implemented in all sectors of the economy. The company is an official Microsoft partner. KORUS Consulting is a recognized leader in the automation of retail, distribution and production.

# WHY IS THIS IMPORTANT?

Project objective is to use standard as much as possible, thus the best practice processes must be checked together by the consultative work method. One of the most important success factors in ERP projects is the mentality and willingness to find out the solutions for issues.

This is the set up at KORUS team and cannot be emphasized too much. This is a big asset, as we have vast experience in Dynamics projects. We believe that it truly differentiates KORUS positively from its competitors.

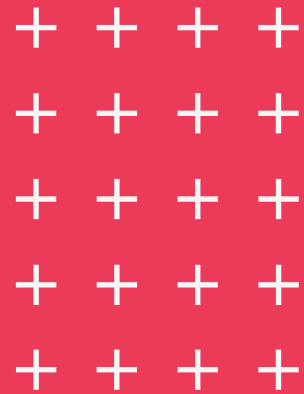

# THE PROPOSAL

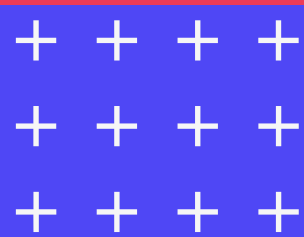

## AGENDA

1. Global Template Solution review
2. Workshops preparation (agenda, schedule, demo)
3. Workshop sessions
4. FIT-GAP Analysis deliverables preparation:
  - o GAP list approval with the responsible persons of Russian and Head Offices. Adding priority for each GAP, mark what GAPs are mandatory and what are desirable, add a type for each GAP – is it a legal requirement or not
  - o Project architecture
5. High-level Project Plan preparation
6. Budget estimation for Roll-out

## DELIVERABLES

1. FIT-GAP list
2. Project Architecture
3. Templates of Project management documents:
  - o Project plan
  - o Status reports
  - o Change requests
  - o Budget report
  - o Steering Group minutes
  - o Project group minutes
4. High-level Project Plan for Implementation
5. Financial proposal for Rollout project

## RESULTS

- Approved GAP list and preliminary architecture
- Project plan and budget
