

Thorough **Disaster Recovery** Validation

Test your disaster recovery before you really need it

If the unthinkable happens, it can sink a perfectly healthy business. Data backup has been around a long time, but recent advances have significantly improved the ability to back up data and offer new, efficient ways to recover. Without the ability to recover to proper specification, what good is a backup? Data should also be secured, monitored, and recovery should be periodically tested.

Evaluate your existing disaster recovery solution before you're forced to rely on it

Verify **data retention policies** meet your business requirements

Discuss **current DR solutions** relative to available technologies

Test and record **simulated recovery scenarios**

There's a lot to consider - all businesses are unique - but our expert consultants and engineers will determine the best solution. We work towards finding the **technology solutions that best suit our clients' needs** to improve security, efficiency, integration, and insights. We're not a typical IT company selling products for short-term, short-sighted fixes. **We invest in long-term solutions for a company's growth** by taking the time to learn its products, process, and business goals before bringing tech into the conversation. In this way, we become much like our client's very own internal IT department with familiar faces who understand the business and are ready to help. We offer a variety of core competencies to **fully support a company's IT and technology needs 24/7**.

We Make It Easy

Our assessment will quickly uncover gaps and opportunity for improvement, no commitment required. We then provide a plan and cost estimates for improvements.

All Encompassing

Ensure data protection across all of your systems and data storage locations. InsITe will provide long-term disaster recovery solutions based on the whole picture.

Deliverables:

- + Peace of mind
- + Complete **documented security disaster recovery configuration**
- + Risk mitigation action plan
- + Complete **cost estimate to address gaps**
- + **Understanding of today's available solutions**

Manage It

InsITe provides managed backup services that can protect you end to end on a continual basis. Have specific recovery requirements? We'll come up with a plan!

Share Ownership

We aren't here to keep our processes and tools secret. We work alongside your Team to leverage our best in class toolset and work as an extension of your Team.

Process Matters

We're **not your typical IT company**, and we mean it. We provide long-term IT solutions tailored for each business.

1. Evaluate

- We speak with you, your management, and your employees to **gain understanding**
- We clarify the needs you have now, which allows us to **anticipate needs** you might have in the future

2. Strategize

- Once we have complete understanding it's time to **work with you** to develop a technology strategy
- We design a **holistic road-map** that connects and enhances your people, process, and the tech you use

3. Integrate

- This might be our favorite part. It's where the **IT solutions become a reality** in your workplace
- From **improvements in productivity**, to cloud-based collaborative programs, we **implement the changes**

4. Maximize Results

- As we manage your systems and take on projects with your business, we **keep an eye on future needs** too
- We can maintain your current systems at top power or plan out the **most fitting solution** for new opportunities

Quick Value Starter

Our process is so easy to get started! We offer 8, 24, or 48hr Quick Value Starters (QVS) that can include the following:

Discovery: where we come to understand your business needs

Solution: we create a complete, tailored strategy

Educational Mindset: educating our clients so they can make great decisions

Transparency: all relative info and data is shared if desired

InsITe Advantage

We employ our **ESIM (Evaluate, Strategize, Integrate, Maximize Results)** process in every project we take on. ESIM is the secret ingredient in all we do, and this mindset makes sure we **understand the problem before we strategize to find the best solution**. It is a structured approach to your needs and allows us to find the very best solutions for your business, long-term.
