

Azure Everywhere

Ready to migrate to the Cloud?

Azure Everywhere is a Microsoft funded program that offers the opportunity for POC funding toward your business move to Azure with SyCom. It's easy for qualified customers.

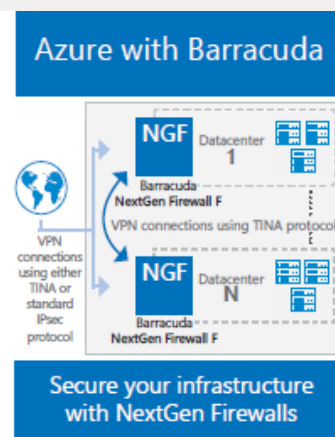

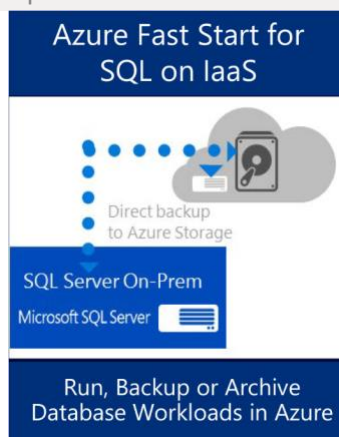

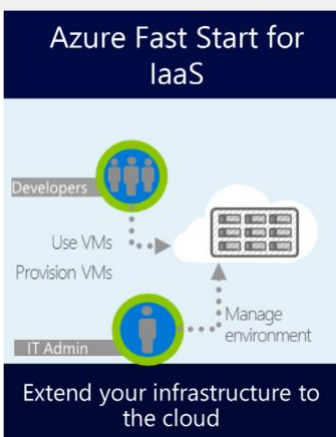

Microsoft Partner Network's
2016 US SMB Champions Club
Regional Partner of the Year

Here's how it works:

STEP 1 - Select one of these three Fast Track options

STEP 2 - Participate in the Azure Everywhere 3-Day Workshop offered by SyCom that consists of:

- Azure Fast-Start – A 3-day remote, hands-on Azure workshop aligned to 1 of 3 core scenarios (IaaS, SQL Server on IaaS, or Azure Site Recovery (DRaaS)).
- A complimentary Azure Assessment that will provide insight into systems that can be migrated to Azure, estimated monthly charges to reside in Azure, roadblocks, etc.
- 4-hour session to build a monthly consumption plan with the Customer
- Whiteboarding session with an Azure Solutions Architect and SyCom Account Manager to discuss next steps or provide answers to any questions related to Azure.

STEP 3 - Contact SyCom

Your SyCom Account Manager along with SyCom Microsoft experts Chris Timberlake, VP of Engineering, and Rob Spitzer, Microsoft Solutions Practice Area Manager will execute a POE (Proof of Execution) form that will allow SyCom to perform these services free of charge. Offer available for a limited time only.
