

Security for the Cloud

ABOUT CAMPANA & SCHOTT

Cloud Security

Cloud environments provide new and unique challenges for security teams. Campana & Schott supports organizations and their security teams implementing a state-of-the-art security approach for cloud environments. We enable you to secure single cloud, multi-cloud as well as hybrid environments.

WHAT WE OFFER

- Targeted solutions for cloud specific security risks
- Traditional on-premise security approaches rarely meet cloud requirements
- Multi-cloud environments require consideration of several cloud providers

- **Hands-on approach** – security implementation approach providing guidance and structure for stakeholders
- **Fast Results** – focus on quick wins in parallel to strategy and approach design process

- Skills for Zero Trust implementation
- Extensive knowledge and experience with Microsoft Security technologies offered by CS Consultants

- Cloud security strategy & roadmap that showcase future approach for securing cloud workloads
- Quick Win implementation to proof increase of cloud security level
- Long term improvements by considering approaches for securing future cloud workloads

What Microsoft is saying

“Whether cloud, digital workplace or digital processes: Campana & Schott offers cyber security solutions according to the latest standards, thus protecting companies from the diverse and constantly changing threats. Proof of this competence is the Microsoft Gold Partner status in the area of security.”

– **Stratos Komotoglou**

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
