

FPT SERVER MIGRATION CLOUD SOLUTION

Current Azure innovation across apps, data, & infrastructure

Azure Migrate to assess Windows/ Linux VMs

Java/ Tomcat support in Azure App Service

Azure Database for PostgreSQL, MySQL, and MariaDB

Azure Site Recovery for Windows/ Linux migration

kubernetes

Windows/ Linux containers on Azure App Service, Kubernetes on Azure

Azure SQL Database Managed Instance

Azure Database Migration Service for SQL Server and MySQL, PostgreSQL, and NoSQL migration

Red Hat Enterprise Linux & Red Hat OpenShift container platform support

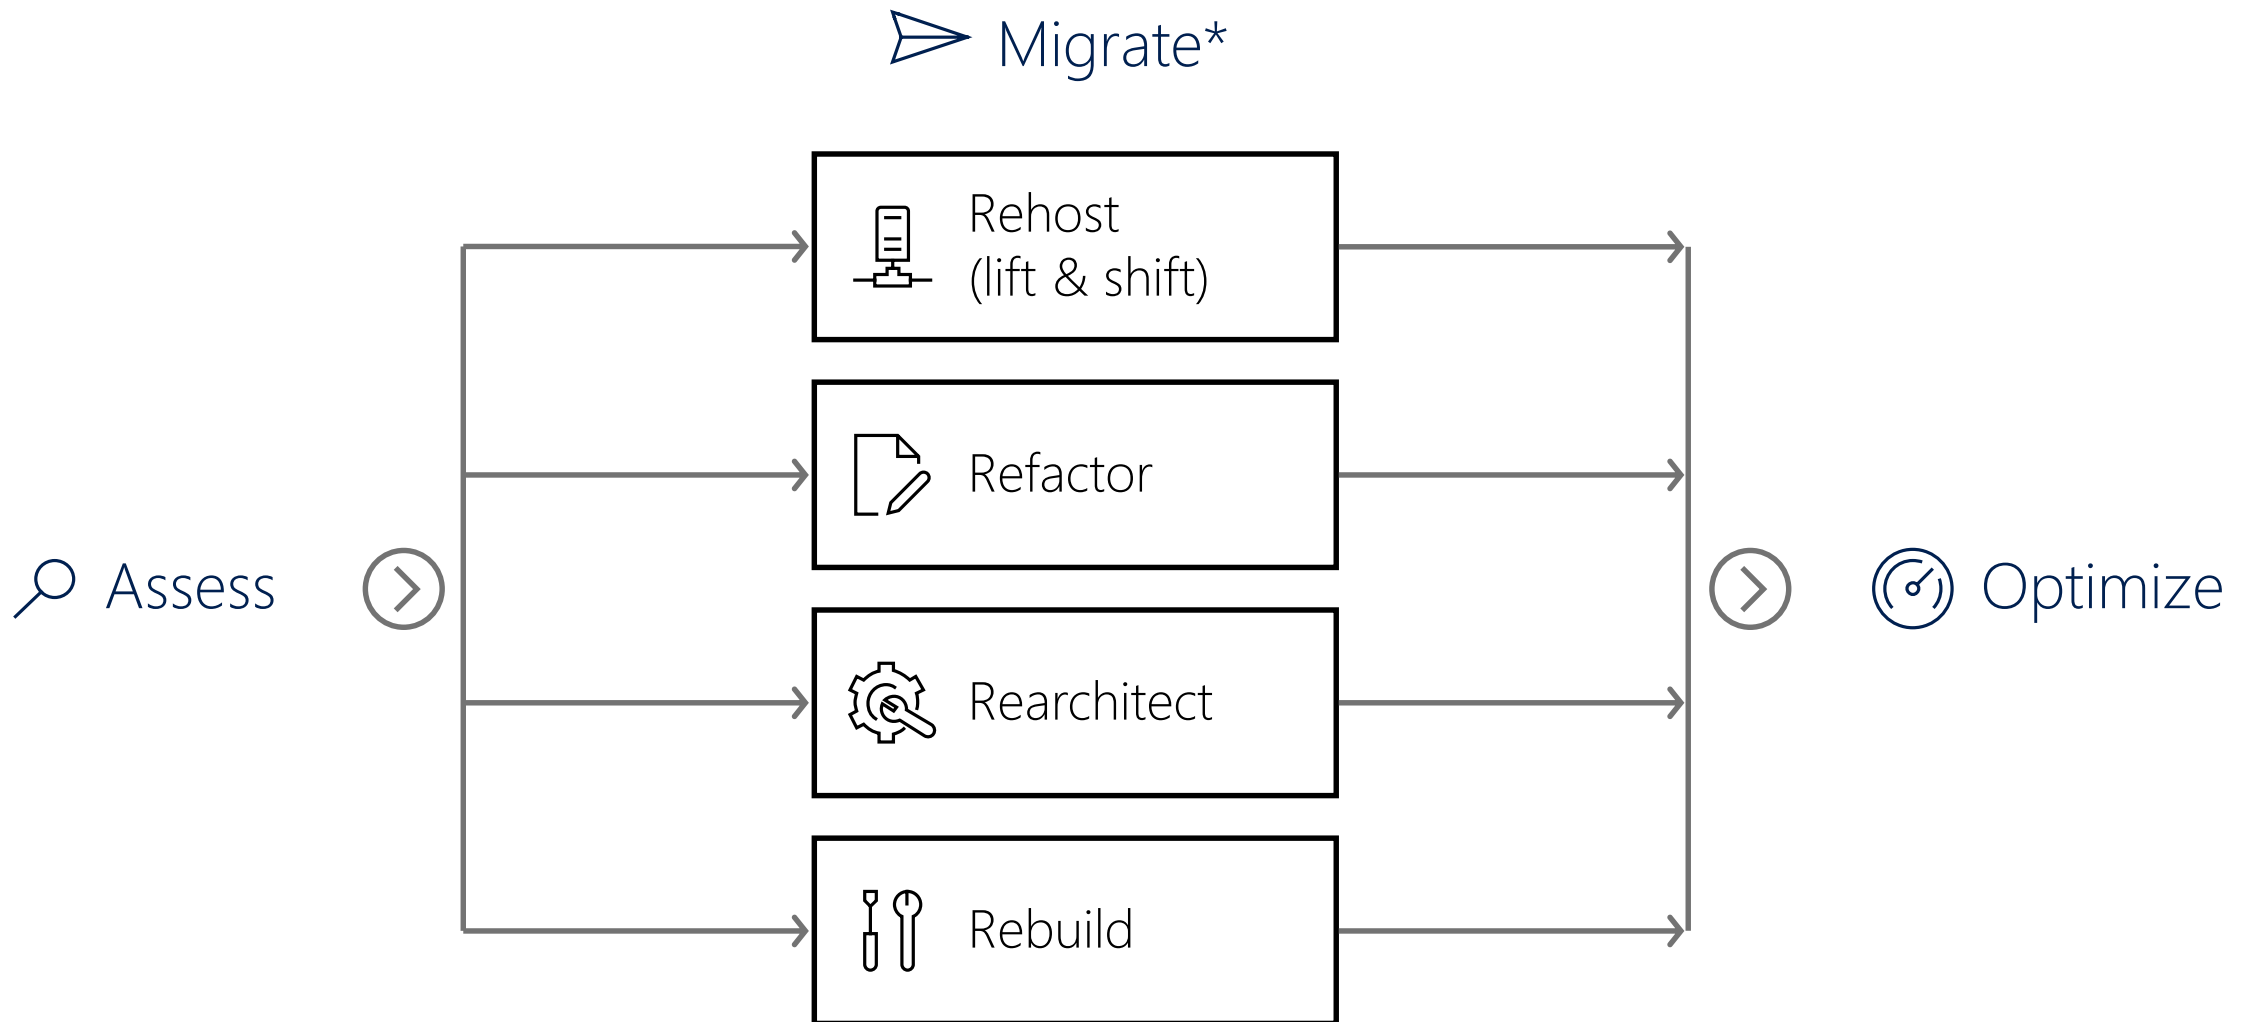

cassandra

mongoDB

Cassandra/ Mongo DB support in Azure Cosmos DB

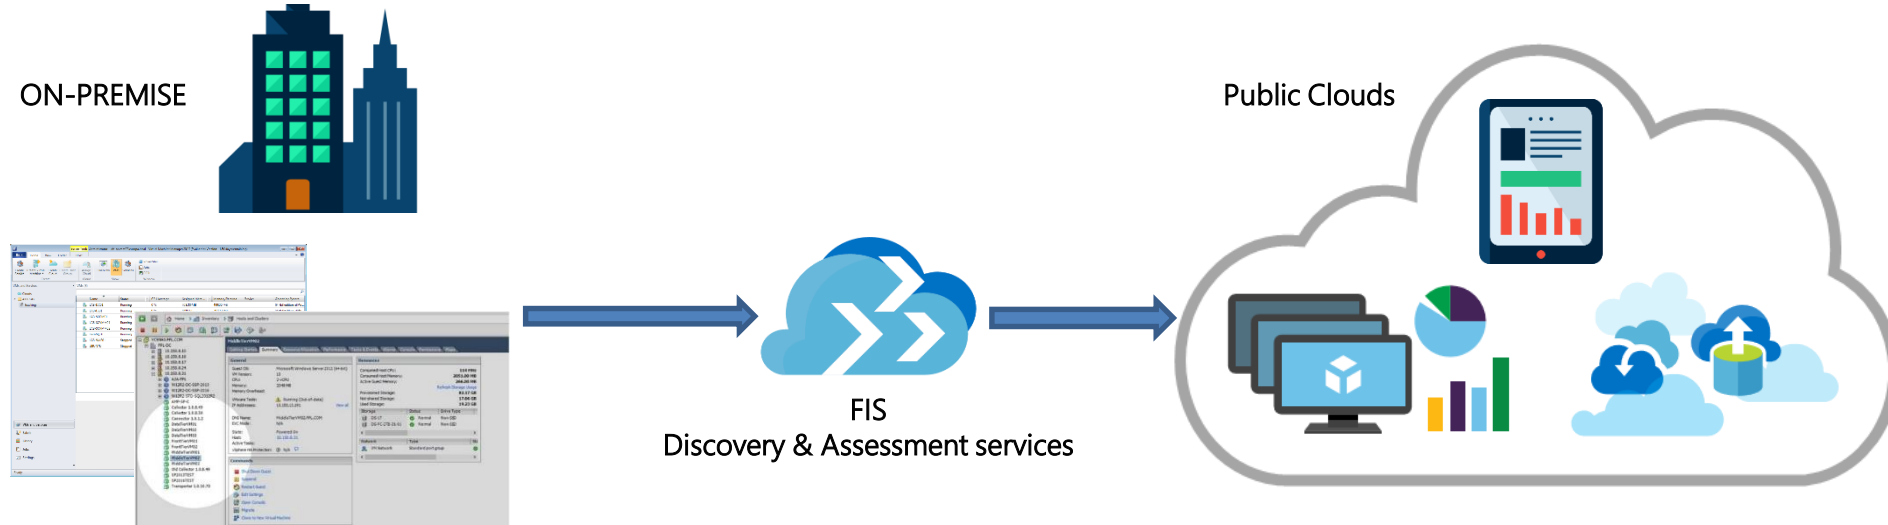

Azure migration journey

*These migration strategies are adopted from Gartner research. Gartner also calls out a 5th strategy called "Replace" which is about SaaS. We won't focus on that here..

CLOUD READINESS (ASSESSMENT & CLOUD MIGRATION)

FPT IS – Enterprise Sector

WORKSHOP

- Introducing Cloud concepts & capabilities
- Business benefits & requirements
- Security & Privacy

ASSESSMENT

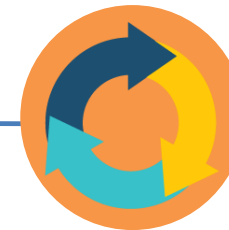

- Business planning & transforming
- Assess your on-premises & services evaluation

PLANNING & DESIGN

- Business case sharing
- Workloads recommendations
- Applying best practice
- Solutions & integration design (Hybrid or Full)

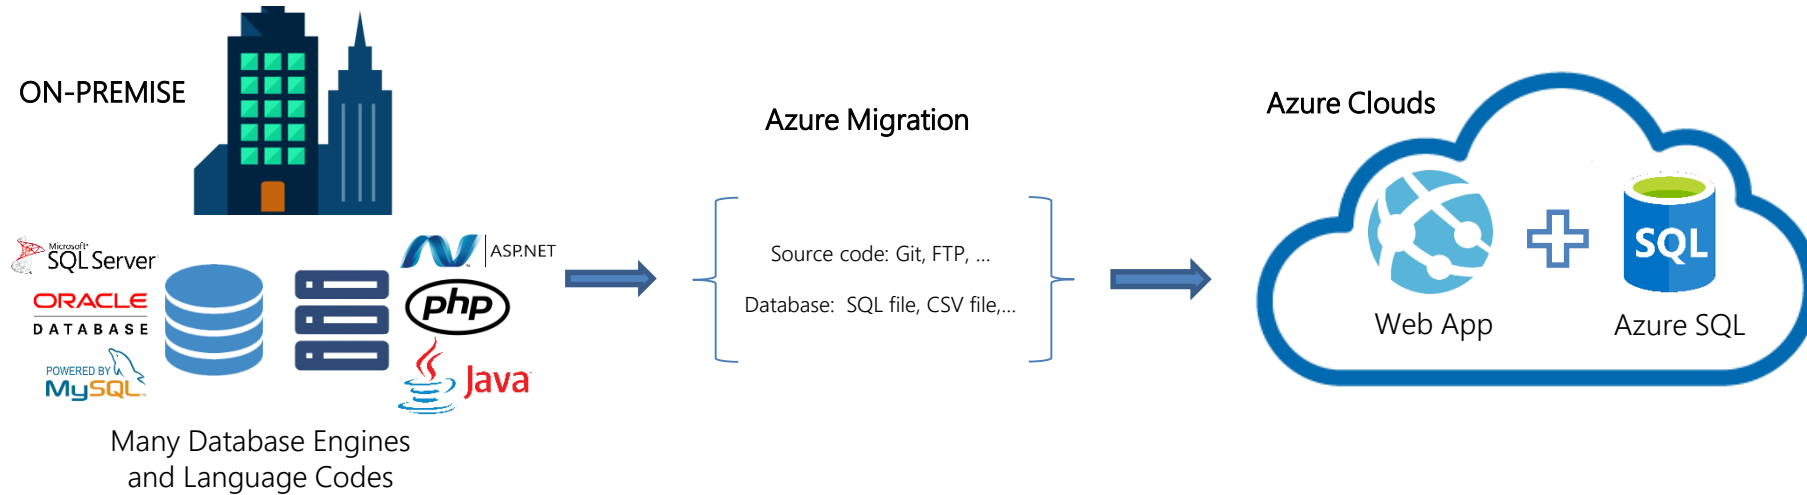

EVALUATION

- Implement Proof of concept
- Migration strategy
- Business adoption
- Estimate & optimize monthly costs

WEB & DATABASE APPLICATION MIGRATION

FPT IS – Enterprise Sector

WORKSHOP

- Introducing Azure Web App & Azure SQL
- Business benefits & requirements
- Security & Privacy

ASSESSMENT

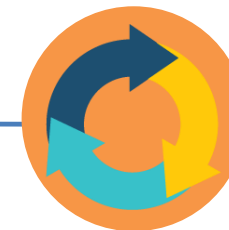

- Database Engine version, Language code & environment (Windows, Linux, ...)
- Capacity of Source (file + images)
- The Special Requirements

PLANNING & DESIGN

- Business case sharing
- Workloads recommendations
- Applying best practice
- Solutions & integration design (Hybrid or Full)

EVALUATION

- Implement Proof of concept
- Migration strategy
- Business adoption
- Estimate & optimize monthly costs

CONTAINER & MICROSERVICES

FPT IS – Enterprise Sector

SURVEY

- Get customers' requirement.
- Advise some new feature on cloud to get additional need.

ASSESSMENT

- Assess existing application system.
- Assess demand & technical level of customer in adoption of new architecture.

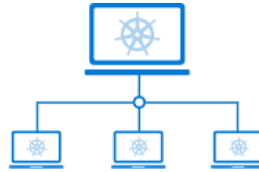

PLANNING & DESIGN

- Planning architecture, control flow & data flow
- Design schema & data store in persistent context.

SERVICE MAINTENANCE

- Backup & Recovery test under control
- Improve Security & Network Discovery between components

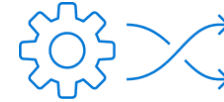

Deploy & Manage cluster with ease

Scale and run applications with confidence

Accelerate your containerized app development

Open-source tools & API

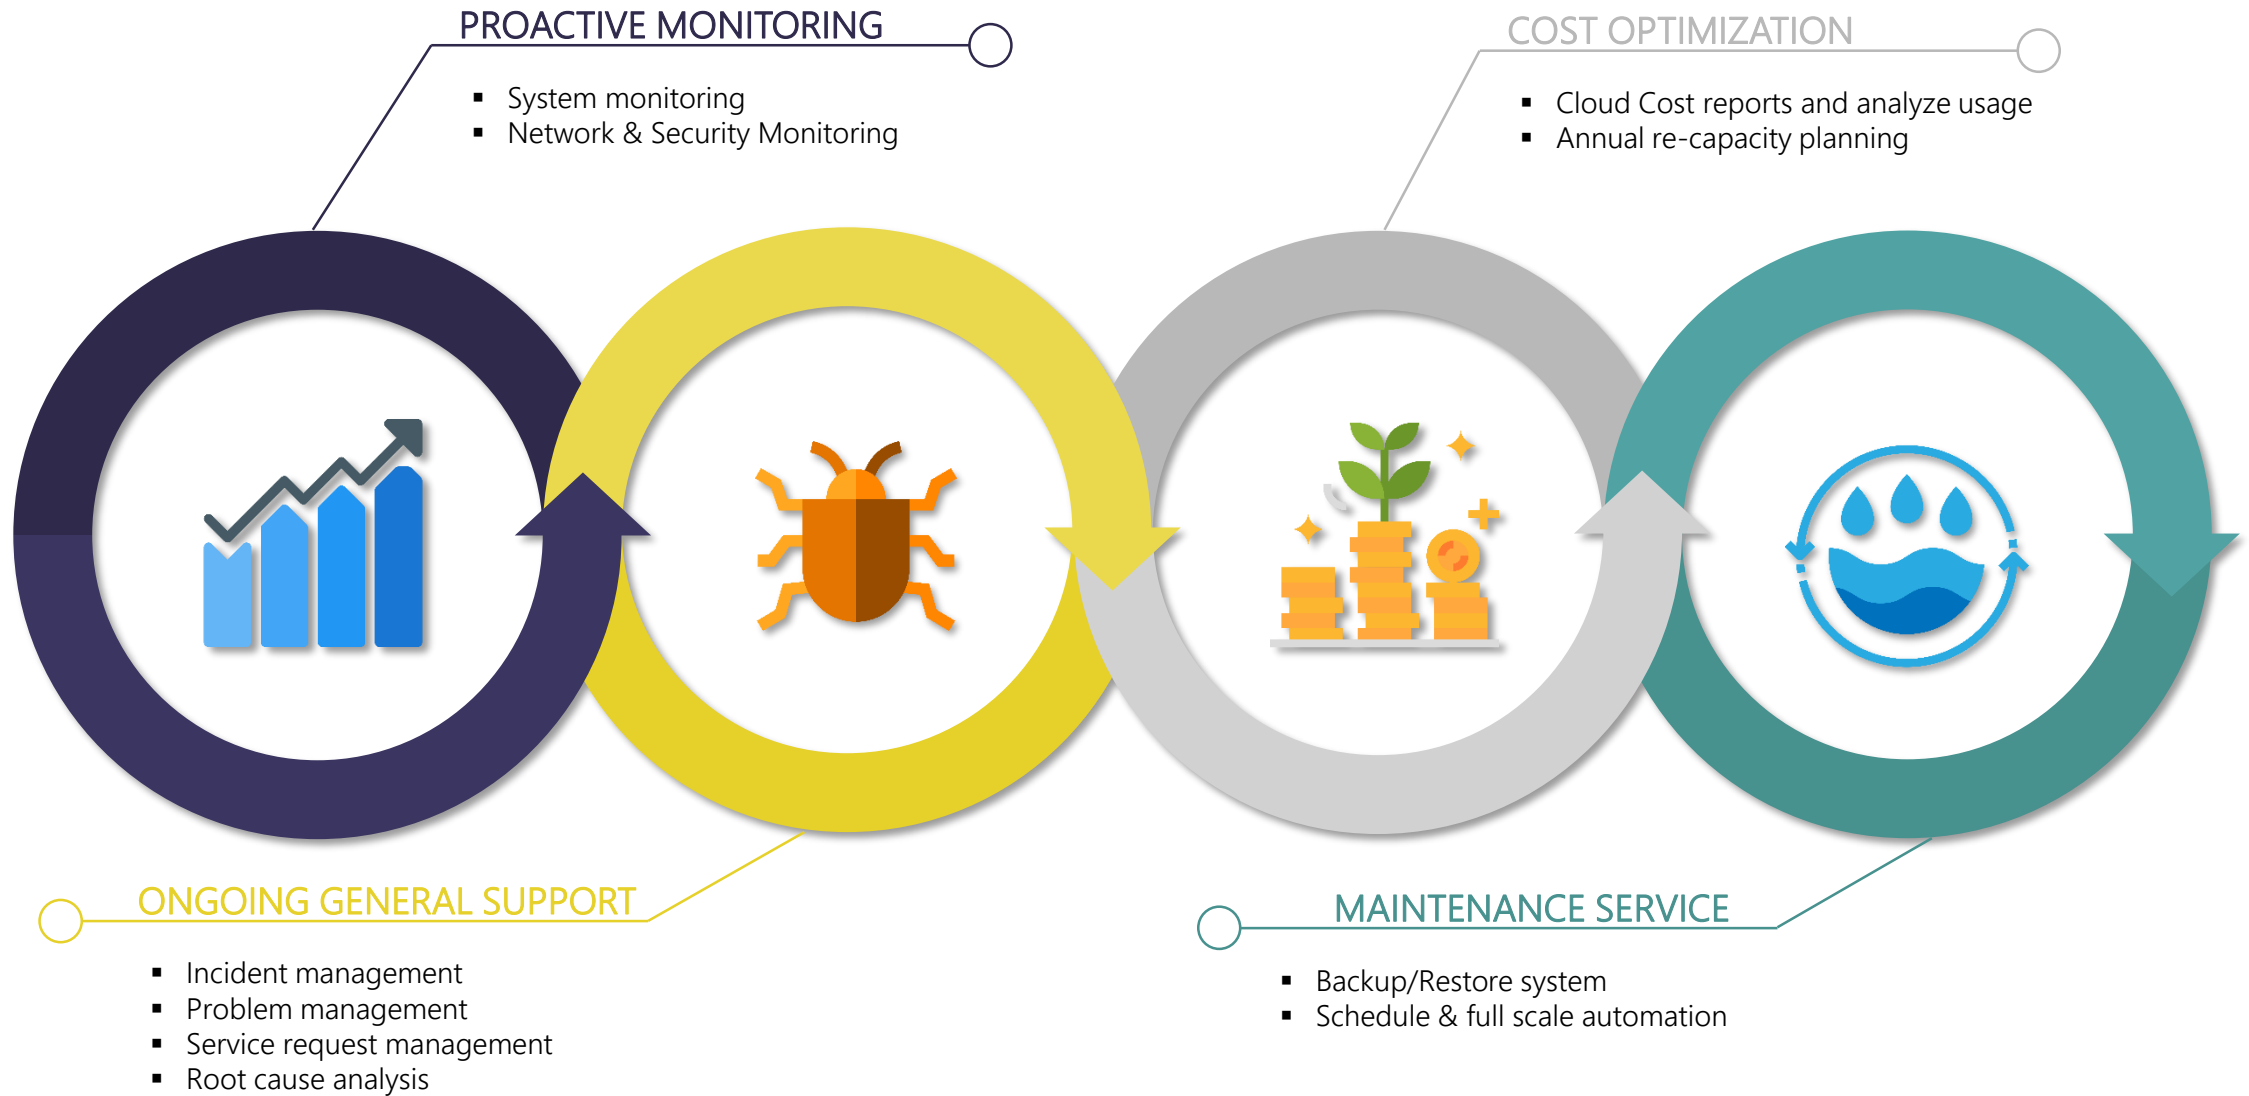

Secure your environment

Set-up CI/CD with less effort

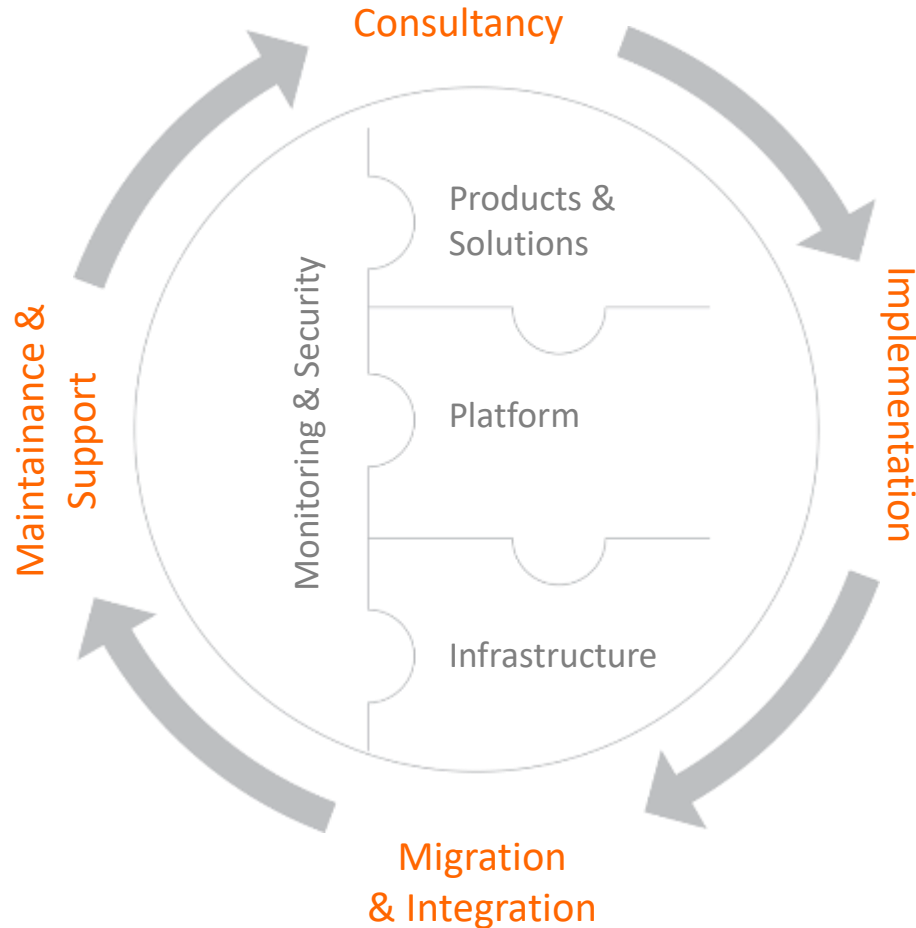

CLOUD MANAGEMENT SERVICE

FPT IS – Enterprise Sector

WHY FPT Information System?

System integration

#1

Biggest company in Southeast Asia in terms of employees

2,500+

Number of engineers

#1

Strategic partners of world top vendors

20
years

Implementing end-to-end information systems for customers across industries

Prime contractor

For the implementation of national largest IT projects

Microsoft Partnership & Capabilities

EPT Information System

Partner-
ship

Strategic partner of Microsoft

Cloud Platform
Cloud Productivity
Collaboration and Content
Communications
Data Analytics
Data Platform
Datacenter
Messaging
Windows and Devices

2000+ international certificates issued by world leading vendors

International quality system standard
