FinOps

On-Demand Solution

Solution

Cloud financial management and continuous cost optimization, ensuring teams to obtain value from provider's capabilities at minimal cost.

Collect

Involvement of experts to obtain **benchmark, budget and forecast** information:

- Usage behavior;
- Cost breakdown;
- Budget;

Analysis

Technical study to **optimize cloud resources**:

- Eliminate idleness;
- Correct sizing of instances and services;
- Commitment;
- Category services;

Report

Prepare and present **reports**:

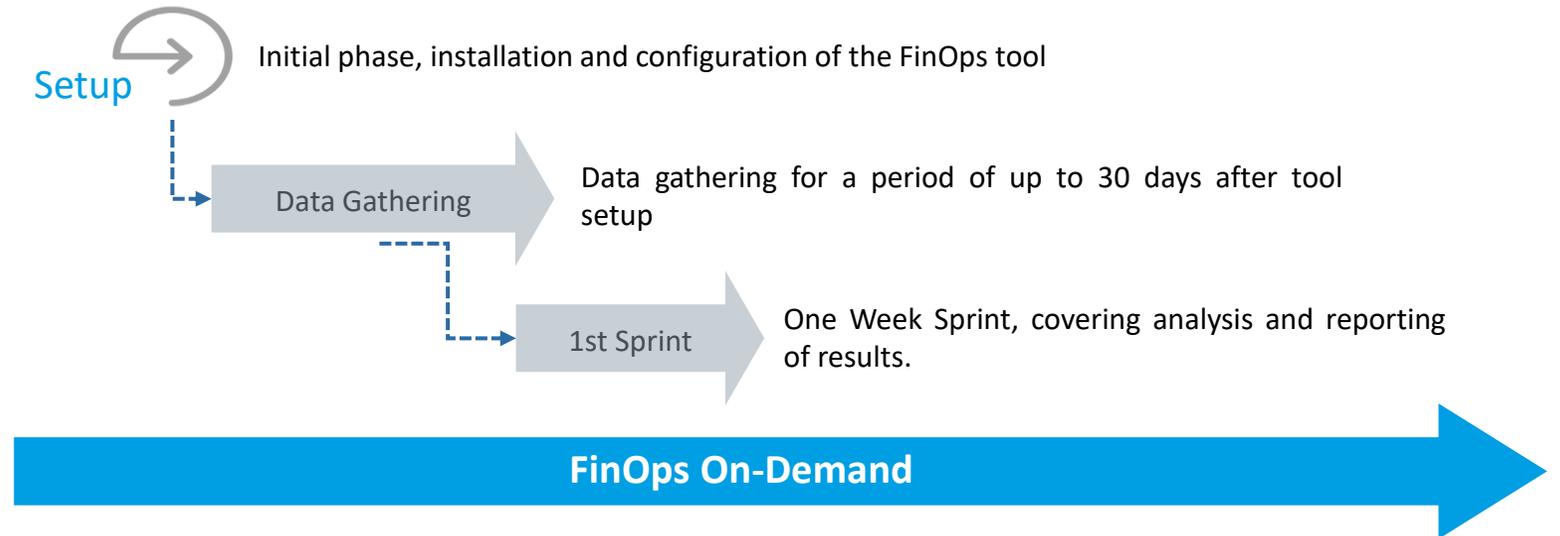

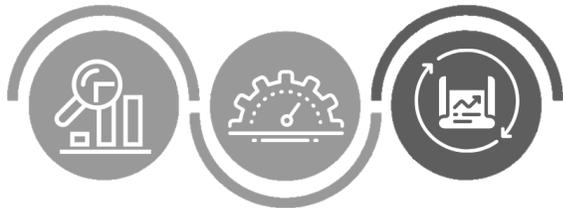

- Cost visibility & optimization;
- Flavors;
- Models;
- Resource Mapping;
- Supply strategy;
- Financial strategy;

Delivery

FinOps will be delivered by agile teams using sprints methodology. This model has been applied by TIVIT and has brought great results to our customers.

FinOps On-Demand:

- FinOps software setup;
- Data gathering;
- Data Analytics;
- Dashboards and reports.

FinOps On-Demand can be contracted on a recurring basis. Based on the history of clients managed by TIVIT and considering the financial gains obtained, we recommend running the FinOps On-Demand service every 6 months.
