

# Azure Governance Workshop with eCraft

## For who this workshop is for:

To keep your Azure investments on a safe, secure and compliant path you should ensure that you have a Governance model in place that creates the guardrails for your cloud environment. eCraft's Azure Governance model is an efficient and a proven model to kickstart the cloud governance.

This workshop is intended for companies that want their Azure environment to be compliant, secure and standardized. Your company can be in the beginning of a cloud journey or already fully utilizing Azure cloud.

## Result:

As result of the workshop you will increase your level of knowledge about Azure Governance and you will be provided an initial Azure Governance document with a roadmap proposal for next steps of your Azure journey.

## Deliverables:

- What is Azure Governance lecture**  
Lecture covers an overview of the Cloud Adoption Framework and widely explores the possible topics that can be part of your Azure Governance model
- Customers initial Azure Governance workshop**  
Workshop where we jointly agree on what areas the initial governance model should cover
- Deep dive workshop**  
Workshop where we detail out all the elements that are selected into the initial governance mode
- Initial Governance model**  
Initial governance model document is presented, handed over to customer and an agreement of implementation steps
- Future Roadmap**  
Future roadmap proposal

## About eCraft:

We are an award-winning digitalization partner of our customers and named as the Digitalization Partner of the year by Microsoft Finland. For twenty years, we have been delivering cloud native digital solutions that help build competitive advantage for our customers. We create business solutions of tomorrow to support our customers' needs in cloud, data & AI, business applications and modern work.

## About our Azure experts:

eCraft is a recognized Microsoft provider in Finland, with countless operational production solutions delivered across multiple industries and public sector. As Azure cloud provider we have been pioneer in the field for more than 10 years. We are seasoned problem solvers, with a passion for your bottom line. Instead of reinventing the wheels, we use ready-made platforms, assets and methodologies to help you win with Azure cloud. We can help you in everything you need in your cloud transformation, from vision & strategic advisory and proofs-of-value all the way to operational production solutions and continuous services.
