

# 'Do-it-yourself' B2B Mobility Platform - Evidens

PROPERTY & CASUALTY

LIFE & ANNUITIES

HEALTH

Evidens is an innovative 'Rapid Mobile Application Development (RMAD) Platform'. This code free platform helps to configure and deploy unlimited enterprise mobile applications (B2B) in minutes and optimizes efficiency of critical insurance field operations such as surveys, investigations, loss assessment etc. with real time data. The comprehensive platform enables businesses across industry verticals to build customized mobile apps, with the help of Evidens Sky Portal and Evidens Field Apps.

The Evidens Sky Portal helps configure enterprise mobile apps on-the-fly and monitors, tracks and manages field activities.

The Evidens Field apps enables on-field staff to collect data, capture images and videos with geo-tagging and e-signature.

Some of our featured enterprise mobility solutions built on the Evidens Platform include - Motor Loss Assessment Solution, Motor Break-In Inspection Solution, Health Claim Investigation Solution and Property Risk Survey Solution.

## SALIENT FEATURES

Rapid B2B mobile app development on a code free platform

Efficiently works in both online and offline modes

Enhanced Task Management and Configurable Workflow

Manage Distributed Workforce from a Single Location

## VALUE PROPOSITION

### Multi-Level Reporting
