- OSS DB to Azure

### Enable Azure:

- Resilient Planning & Architecture
- Cloud Adoption Framework & Governance
- Cost Optimisation

**Microsoft Partner**

Microsoft

Gold Cloud Platform
Gold DevOps
Gold Datacenter
Silver Data Analytics
Silver Application Development

Expert guidance on your Azure Cloud journey from initial design to cloud ops.

Automation and DevOps engineering to move your releases from months to minutes.

Cost-effective access to specialist skills when you need them.

Flexible 24x7 managed services for your most critical applications.

# Free Azure Architecture Framework Review (AAFR)

The Azure Architecture Framework Review (AAFR) helps organisations identify the strengths and weakness of their current or planned Azure cloud architecture. The AAFR is an interactive 2-hour workshop (remote friendly), based on the 5 Pillars of Cost, DevOps, Resiliency, Scalability & Security, delivered by experienced Azure & DevOps Engineers. Customers get a prioritised action plan to improve their Azure environments. All for free!

## About DevOpsGroup

DevOpsGroup are an award-winning UK based Microsoft Gold Cloud & DevOps Partner specialising in Cloud and DevOps engineering. We build and run the Pipelines and Platforms that empower our customers continue building great technology products.

At DevOpsGroup we've worked with over 100 clients in 10 countries, across markets and sectors including both established enterprises as well as fast-growing disruptors. We've helped these companies to build modern cloud platforms and operations, accelerate their transitions to DevOps practices, and modernised their workforces through up-skilling, re-skilling and professional training.

We make Cloud and DevOps fast, secure and simple.

"DevOpsGroup has played a pivotal role in helping us rebuild our cloud infrastructure to respond to growing demand from customers and bring new applications to market at speed."
