

AFFINE
COMMAND THE NEW

Anomaly Detection Solution Powered by Azure AI and Cognitive Services

Enterprise AI/ML Solutions To Drive Business Transformation At Scale:

Enabling business focused data science, AI and BI development with deep domain expertise. Affine believes in faster design to faster deployment through key differentiators- Experimentation Focus and Speed to Value.

WHAT WE OFFER

Affine's Anomaly Detection solution is designed to monitor time series data and detect abnormalities in real time, allowing customers to identify anomalies in their business or production processes as early as possible.

The solution is designed to detect anomalies in multiple variables with correlation, which are typically gathered from equipment, machinery, and production lines.

The solution can detect anomalies in real time, allowing businesses to take proactive measures to fix issues before they cause damage.

Business Benefits:

Lower machine downtime, maintenance costs, and manual interventions

Improved Plant Efficiency and Consistency

Enables proactive action to fix anomalies

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
