If you are looking for a solution to **effectively manage** energy distribution while leveraging the **Microsoft Azure technology**: **Elitmind Sustainability Hub** is here for you!

# Do you want to drive **responsible, sustainable organisation?**

Let's see what you can achieve thanks to **Elitmind Sustainability Hub** solution!

Real-time management  
of renewable sources of  
energy.

Accurately predict spikes  
in demand and stabilize  
the power grid.

Mitigation of  
fluctuation of renewable  
power sources.

Collect, manage,  
process, and analyze  
data from various  
sources.

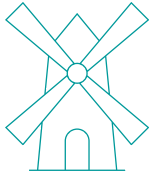

Make business decision  
based on user-friendly  
Power BI dashboard.

Warehouses that absorb  
and release the power  
when needed.

It's time to **push #sustainability further** in your organization!

# It's time to switch to **sustainability!**

As both sun and wind - the basis of **renewable energy solutions** - are changeable, they are making power generation highly variable and dependant on multiple factors.

Our solution enables **mitigation of fluctuations** of renewable sources of energy, by establishing a network of warehouses that **absorbs excess energy and releases it when power is needed.**

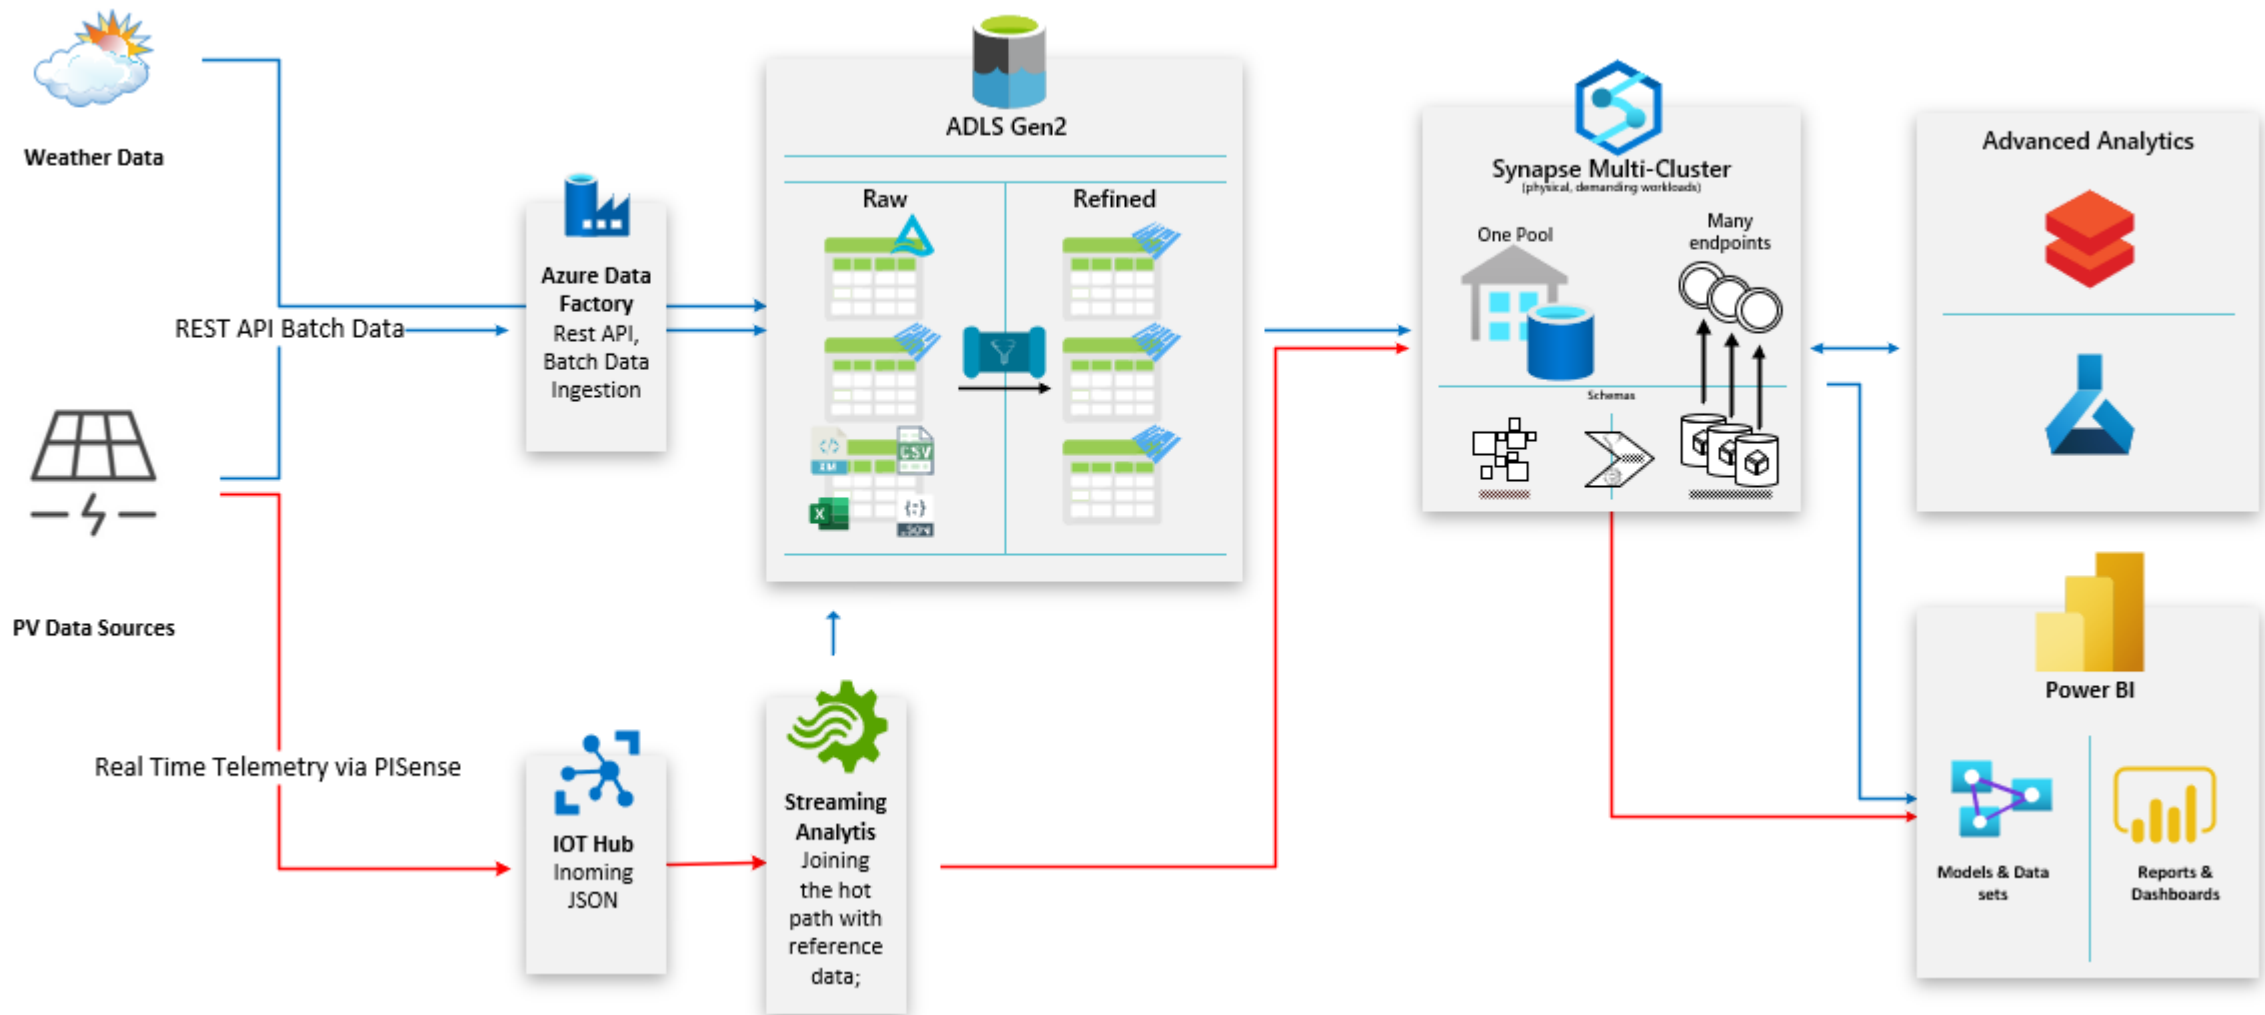

Azure Machine Learning forecasting algorithms **accurately predict spikes in demand**, which helps **balance fluctuating energy levels.**
