OUR ERP CUSTOMERS

Регион: Russia

Отрасль: Manufacture

Решение: Microsoft Dynamics 365 F&O

AQUAPHOR Group is the international holding. It specialized in research, production and distribution of sorbents, household water filters and industrial cleaning systems. The holding produces more than 400 products which are sold in 60 countries.

PROJECT

- Full lifecycle implementation for Aquaphor Russia on Microsoft Dynamics 365 for Finance and Operations (Cloud)

RESULTS

- Creation of an integrated, centralized, scalable IT infrastructure that supports the company's strategic goals of expanding in international markets
- Providing complete visibility of processes at every business level - both in terms of production and management accounting
- Automation of business processes at the production site "Aquaphor" in St. Petersburg: planning and accounting for production, procurement of raw materials, warehouse operations
- Centralized reporting, direct access to detailed information on stock balances and resources
