Data Modernization & Cloud Migration for AI Enablement

Microsoft Azure

Pactera EDGE is an end-to-end intelligent digital platforms company that specializes in building intelligent Cloud-native applications.

The move to Azure Cloud is powered by the intent for Data Modernization.

The Cloud allows for conversion of CAPEX to OPEX (pay as you go), gives scale, security, business continuity and infusion of AI/ML at scale supported by powerful visualizations and insights at the most optimal price points.

WHAT WE OFFER

Our clients that have adopted the Cloud have used a crawl, walk & run approach.
Crawl - Cloud Assessment
Walk - Application modernization made simple
Run - Business agility through data modernization and advanced analytics

Our Data Modernization capabilities allow for data quality improvement, breaking down data silos and storage on Cloud in different formats at extremely attractive prices.

Our unique value proposition is around our intelligence capabilities is that we ingest AI models as the engine of our platforms.

Our solutions can also be automated by leveraging our ML Ops capability: A rapid implementation tool for Azure Cloud – uses Azure DevOps and Azure Pipeline to help customers build an ML pipeline right out of the box.

WHAT OUR CUSTOMERS ARE SAYING

"Pactera EDGE built an Intelligent Trade Promotion Optimization Platform for us. This TPO platform is a big win for us. It's the first time we've built an intelligent business platform entirely on the cloud. But we have a lot more to do and we will continue to rely on Pactera EDGE's engineering expertise"

Senior Manager, Data Science COE,

Fortune 100 CPG Company

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
