

Microsoft Teams Hybrid Meetings Workshop

Ford AV's Microsoft Teams Hybrid Meetings Workshop helps customers realize the full potential of Teams Meetings, by meeting smarter, staying focused, and achieving more with less.

[See in AppSource >](#)

Overview

Ford AV is a Microsoft Teams Rooms premiere integrator and trusted partner of leading corporate enterprises and government entities. The user experience in a room can be one of the most complex parts of an overall Teams deployment. This is especially true for larger, more complex spaces often used for corporate and executive functions. Ford AV understands and uses leading technology blended with engineering excellence to integrate Teams Rooms. From discovery to deployment, across a building, campus or enterprise, discover why Ford AV is one of America's leading Microsoft Teams Rooms integrators.
