

# Modern Collaboration - Move to M365

## About Digital Workplace – fabbricadigitale Srl

Our solutions are based on the platforms Microsoft 365, Microsoft Teams, Microsoft Azure and Workhera, accompanied and completed by the partner ecosystem, able to transform people's work by improving productivity and enabling the most flexible work scenarios.

### WHAT WE OFFER

Move to M365 meets the O365 customers' requirements of a complete Cloud migration, taking advantage of the same security, functionality, and reliability of custom and managed on site and remote support.

Bridge 365 - Modern Collaboration is an all-encompassing set of tools, products, solutions and professional services that combines together enable a secure transition to the cloud.

The continuous support offered to the client, combined with the proactive monitoring and reporting of the entire solution, makes the transition to the cloud and the use of O365's tools without difficulties for the end customer. This facilitates the knowledge and enables the adoption of new potential workloads. Modern Collaboration aims to be a managed process to move users to the cloud.
