Agora

Agora provides an **open**, **secure**, and **scalable** platform
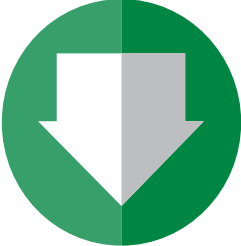

Agora

# Agora Edge AI Platform to Meet Today's Challenges
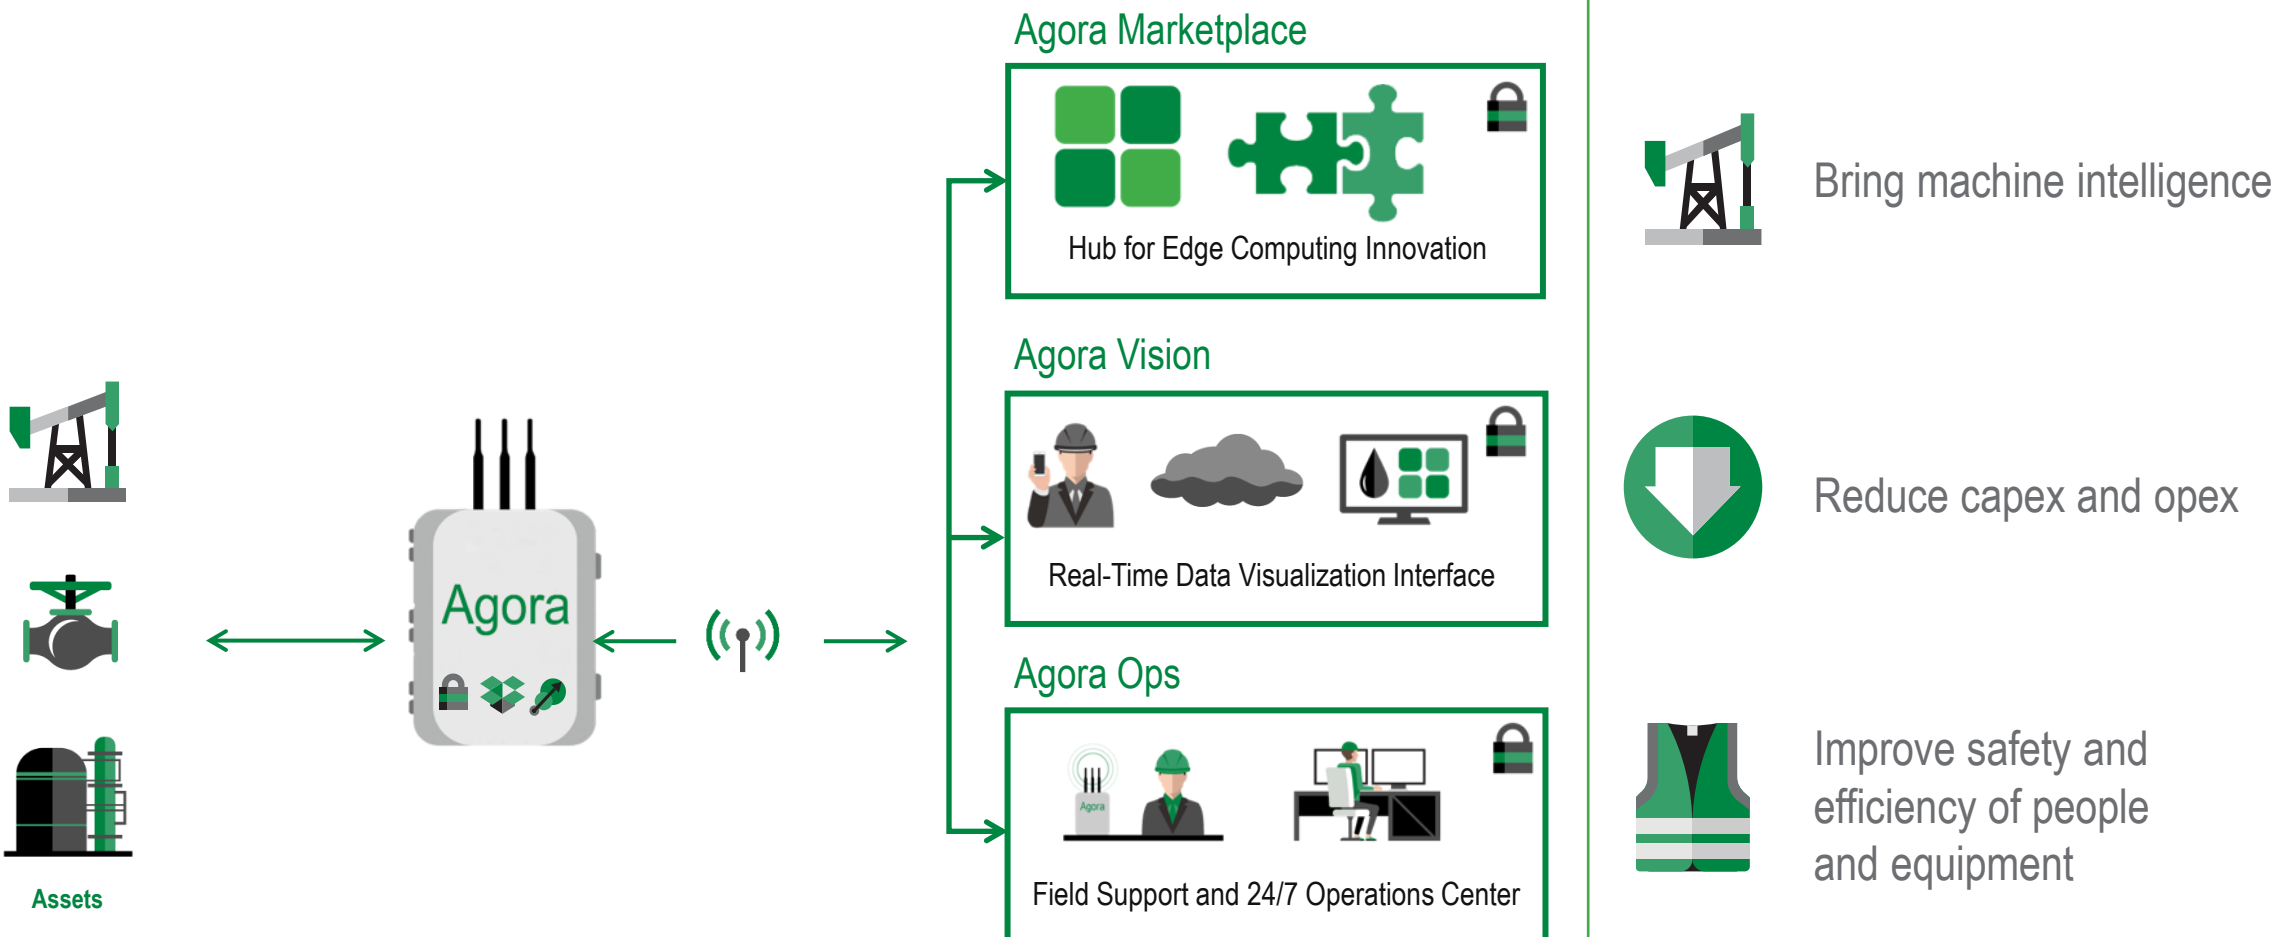

# Agora Platform Value

Optimize production, increase recovery

Lower operating costs

Reduce non-productive time

Minimize HSE risk and environmental footprint

Agora

# Agora Data Explorer

**With Agora, operators connect physical assets to the digital world and visualize data in real time**

## Challenges

- Real-time data contextualization and viewer
- Many use case to visualize
- Connect data with other applications & workflows

## Solution

- Out of the box viewer
- Client driven approach for customized solutions
- Multiple Tags display and remote-control functionality

## Results

- Simple, agnostic and cost-effective data delivery & visualization solution
- Remote monitoring to reduce operational cost, safety exposure and environmental impact
