software for innovators
everywhere.**

CARAVELLABS

Of the top 12 reasons why startups fail, 8 are related to challenges with **achieving innovation at scale**

Reduce risk by testing your innovation idea with stakeholders now

From CBInsights: Top 12 reasons startups fail

CARAVELLABS

Our *Art of the Possible* service

Working software that shows innovation and impact **in as little as 4-weeks**

Designed to help early-stage innovators and stakeholders **gain confidence** in their ideas

Who is Caravel Labs?

Ex-Microsoft Founders

Our founders have worked together for over 5 years at Microsoft, some for more than 12 years. This team led a revolution within Microsoft's consulting services group to bring design thinking and engineering agility to custom application development. The team built one of the highest performing business units within that organization over seven years, constituting a \$500 million portfolio. They have worked not only in traditional technology hot spots, but in 24 countries spanning every human-inhabited continent, and their shared work and positive results achieved are their inspiration for this venture.
