

AUTO-LABELING

Accelerate AI Massive Dataset Preprocessing

Deep learning AI model requires at least 10 million labels to match human level performance. And it takes more than 400,000 Man-Hours on labeling.

Should we spend **2 Years** and **High Cost** completing an AI Model?

Linker "AUTO LABELING" Provides The Best Solution

Continuous Improving

Accuracy Increasing

Cost Reducing

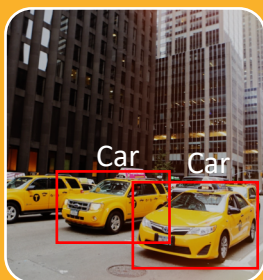

Work Flow Optimization

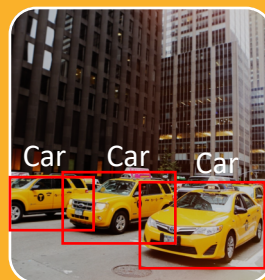

Time Saving

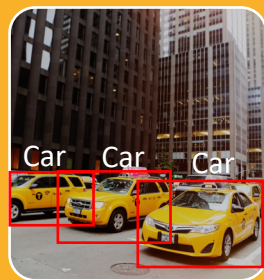

Raw Data

Auto Labeler

Human Correction

Labeled Data

Azure Cloud

Continuous Learning
