WE MAKE **RETAIL**
STORES AUTONOMOUS

AiFi Overview

AiFi is an AI-powered computer vision platform that enables retailers to affordably deploy and scale autonomous shopping solutions across their business.

COMPUTER VISION allows our platform to adapt to existing store formats and various shopper journeys supporting app, credit card, gated, or hybrid entry.

Solution Benefits

Improve the customer experience, operating costs and productivity.

1

CUSTOMER CONVENIENCE

- ✓ Save customers time with uncrowded, grab-and-go stores that can stay open 24/7.

2

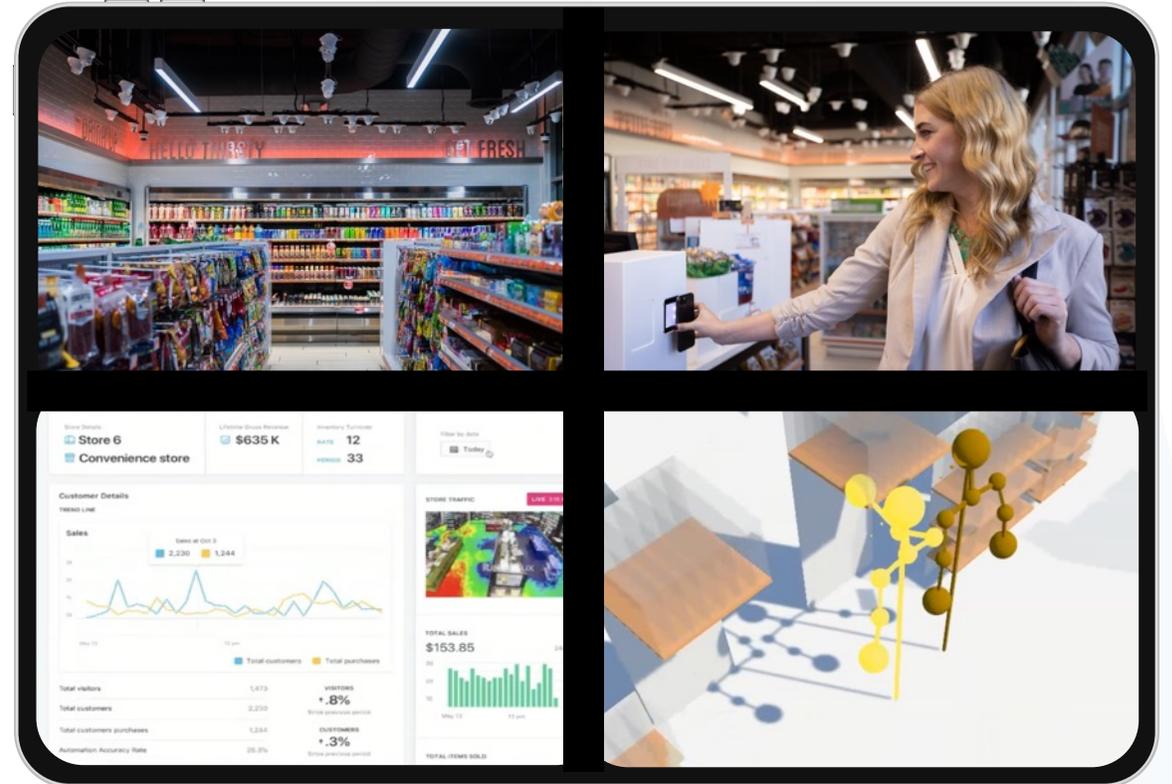

OPERATIONAL EFFICIENCY

- ✓ Use store analytics to find the optimal inventory mix, end stockouts, prevent shrinkage and lower overall costs.

3

OPTIMIZED PRODUCTIVITY

- ✓ Allow staff members to focus on exceptional service that drives revenue instead of attending a register.

How It Works

Shoppers Enter With App or Credit Card, Shop, and Exit Without Waiting In Line

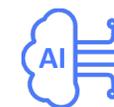

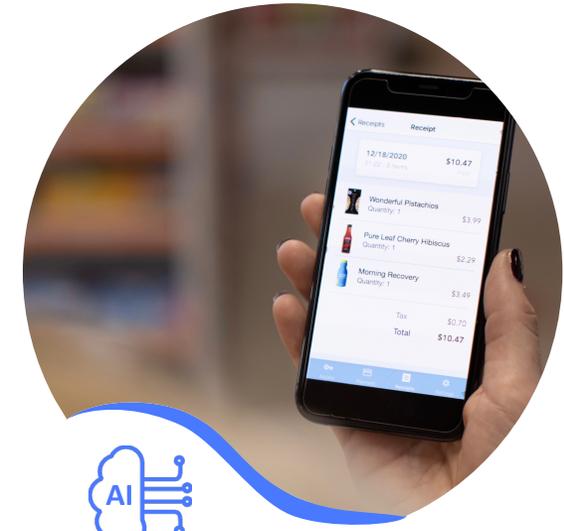

EASY ENTRY

Shoppers can enter the store quickly with their credit card or an app.

SEAMLESS SHOPPING

AI powered computer vision begins anonymized shopper tracking and recognizes products taken.

FRICITIONLESS CHECKOUT

Shoppers can head home completely checkout-free with receipts sent directly to their emails if selected.

SCALABILITY

SYSTEM PROCESSING
AFFORDABILITY

ENTRY OPTIONS
FLEXIBILITY

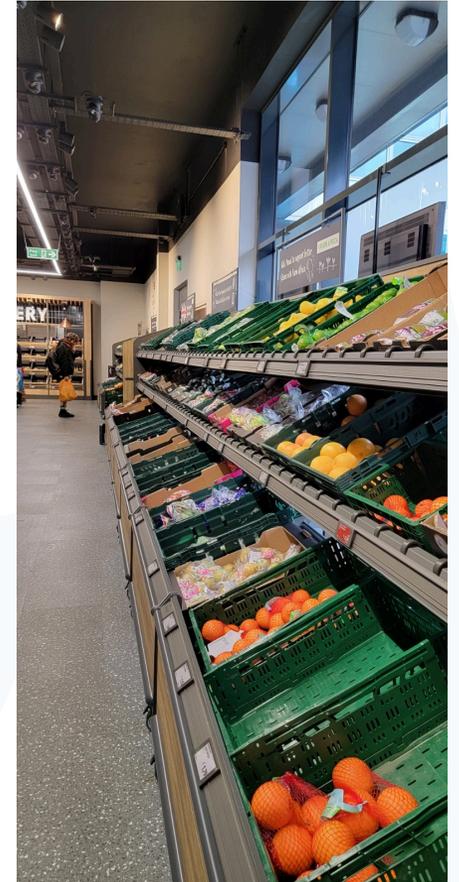

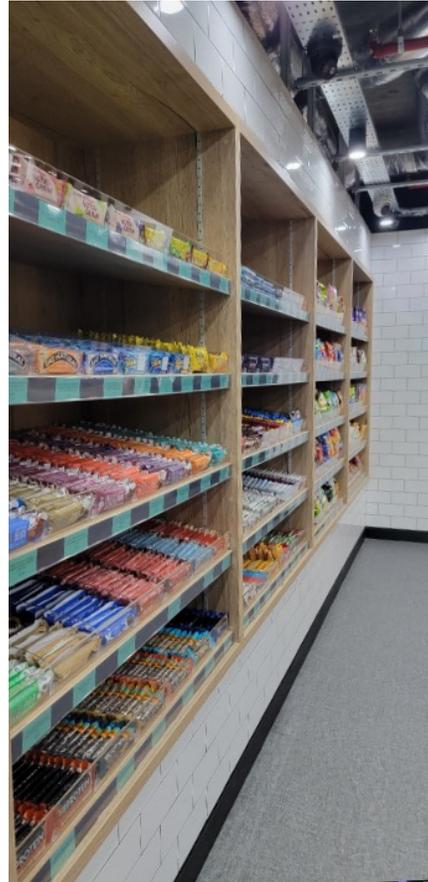

OPERATING SYSTEM
EFFICIENCY

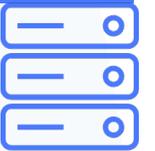

COMPUTER VISION

- **No weight sensors** allows for greater flexibility when retrofitting existing stores.
- **Privacy By Design** with anonymized keypoint tracking.
- **Track more products** with computer vision, including but not limited to:
 - ✓ Fresh produce
 - ✓ Prepared foods
 - ✓ Bakery
 - ✓ Soda & Coffee Machines

SYSTEM PROCESSING

- **Low GPU utilization** to reduce upfront hardware costs and network connection speed requirements:
 - ✓ Less Than 1000 SQFT = 25mbps
 - ✓ Greater Than 1000 SQFT = 50mpbs
- All data services powered through **Azure** for industry leading system benefits and data security.

ENTRY OPTIONS

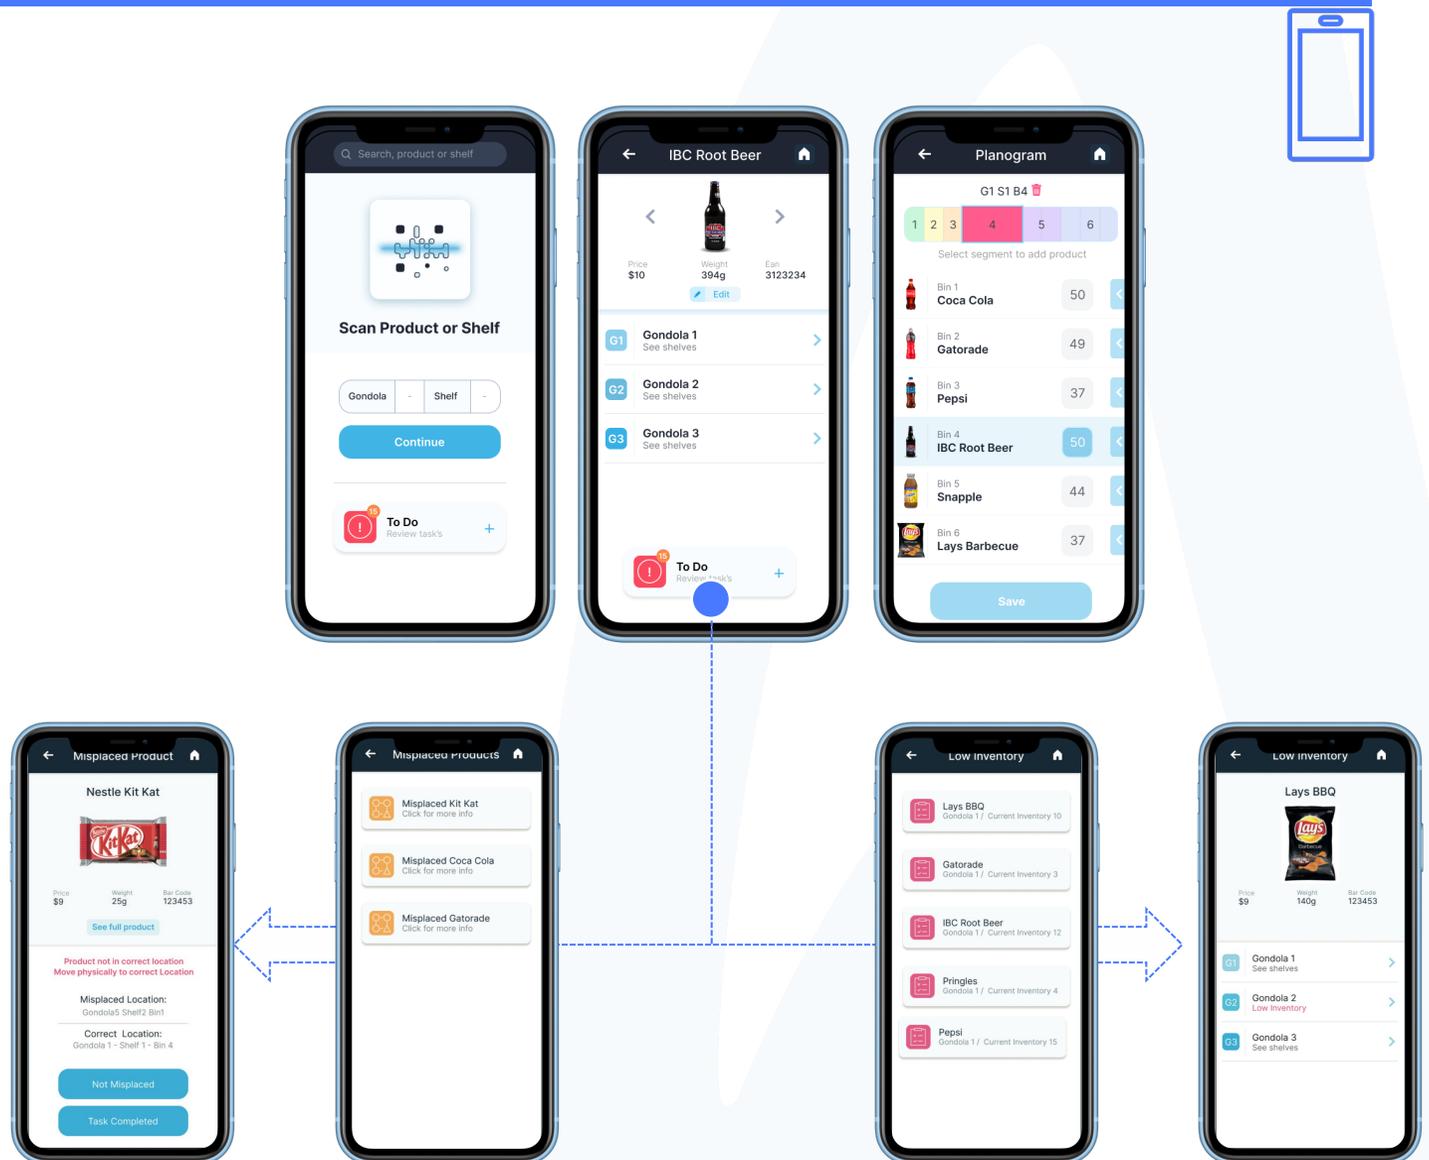

- **Flexible entry hardware** options ranging from turnstiles for gated entry to free standing kiosks for open or hybrid entry.
- Store access possible with either **app or credit card**.
- Operators can leverage **AiFi's White Label** package or integrate into existing platform using AiFi's APIs

OPERATING SYSTEM

- AiFi gives the store operator control and independence to **manage operations** as well as the store planogram.
- Automatically **inform staff** members with store updates:
 - ✓ Misplaced Products
 - ✓ Low Inventory
 - ✓ Planogram Errors

Applicable For Multiple Formats

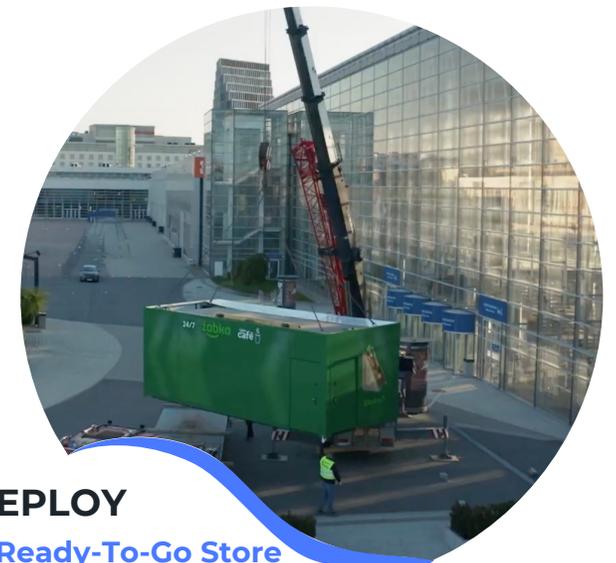

TRANSFORM An Existing Location

Automate **existing stores** without installing new shelving or disrupting the customer experience.

CREATE A New Store

Create a 24/7 autonomous store **within a store** to serve customers faster anytime during the day or night.

DEPLOY A Ready-To-Go Store

Drop a **fully assembled** and autonomous store that is customized to match your needs and brand.

The image features a solid blue background. In the upper left, the word "AIFI" is written in a white, sans-serif font. The letters are spaced out, with "A" and "I" being lowercase and "F" and "I" being uppercase. To the right of the text, there is a faint, light blue graphic of a person with their arms raised in a celebratory gesture. The person's head is a simple circle, and their body is composed of several rounded, flowing shapes that suggest movement and joy.
