Agility on Demand

About Us

TechTrend has supported the **government for over 15 years**. We blaze new trails in the world of cloud, enterprise IT services and solutions. We're proud to be a minority-owned small business appraised at **CMMI Level 3**. We're **ISO 27001, 20000-1:2011, and 9001:2008** certified. Put simply, TechTrend is a trusted advisor to agencies and organizations that need an agile, future-focused approach to enterprise IT.

Azure Cloud
We have migrated and currently host **ATO approved** Government systems in the cloud

DevSecOps
We offer a **DevSecOps** solution built for government

UX/UI Design
We take a **user experience/user interface** design approach

Cloud Experts

TechTrend, an Azure CSP, is an innovative enterprise IT solutions provider that delivers scalable, repeatable, and predictable mission outcomes. From the cloud to the desktop, clients trust us because they know we will deliver a solution that works for today – and sets them up for future success.

Trusted by GSA COE

TechTrend is trusted by the GSA Centers of Excellence (CoEs) to support their mission of accelerating the modernization of IT infrastructure, focused on cloud adoption, across government by leveraging innovation and centralizing best practices and expertise.
