

Microsoft Fabric 1:1 Workshop

An end-to-end review of Microsoft Fabric

The Challenge

In the digital age, data is crucial. However, organizing all of your data sources into one easy and secure platform can be difficult. You must reshape how everyone accesses, manages, and acts on data and insights, which is not an easy task.

The Solution

Microsoft Fabric brings your data into the era of AI by connecting every data source and analytics service together on one platform. With Fabric you can manage your data in a single, AI-powered analytics platform that helps teams turn data into a competitive advantage.

The Spyglass Microsoft Fabric 1:1 Workshop is an end-to-end review of the platform to introduce you to all of the features and how to use it. In this free 2-hour workshop, we will show you what Fabric can do and how it can help you!

Agenda

- Driving Factors
 - Why was Fabric created
 - What is Fabric
- Fabric Overview
