

# Clinical Cloud Desktop POC

## Better Patient Data, Experiences, and Care

The clinical cloud desktop is a personalized roaming desktop that moves with clinicians seamlessly to and from any location and device quickly while securely delivered from the cloud.

Our Clinical Cloud Desktop solution leverages the agility and speed of the Microsoft Azure Network. When combined with Citrix Apps and Desktops, Azure Virtual Desktop, Imprivata OneSign, and Simple Cloud connected devices from IGEL, our solution gives clinicians a sub-10 second reconnect time to their data and provides the most efficient and optimal end-user experience of any workflow on the market.

**Better patient encounters and outcomes**

**Speeds clinician login times enabling more efficient and engaged patient encounters**

**Increases productivity of doctors, nurses, and administrators**

# Clinical Cloud Desktop Includes

- Deployment of Microsoft Azure (*consumption not included*)
- Deploy Microsoft Azure Virtual Desktop (AVD) (*consumption not included*)
- Integrate or deploy Imprivata OneSign Enterprise SSO & Authentication Management (*trial included or sold separately*)
