

Microsoft Teams Room Bundle solution for

MEDIUM MEETING ROOM

NEAT BAR PRO + PAD

A collaboration bar designed for Microsoft Teams. It includes Neat Bar and Neat Pad as a center of room controller. The Neat Bar has integrated camera and microphones. Neat Bar and Neat Pad include all the mounts required for mounting the hardware on the screen, on the wall or on the tabletop. Neat Bar is a simple and elegant, compactly designed yet highly capable meeting room device. It's perfect for bringing superior-quality audio and video to your meeting, huddle or focus rooms for up to ten people. You can mount Neat Bar above or below one or two monitors. Neat Pad is a dynamic touch screen, which you can configure as a controller or scheduler.

PAD AS CONSOLE

Same Neat Pad. Use as the meeting control before, during and after the meeting. Microsoft Teams Console are act as touch console on the desk controls for the meeting experience

PAD AS PANELS

Same Neat Pad. Teams panels provide you the ability to view location and meeting details at a glance, and reserve an available meeting space on the spot. With rich, large text and color-coded indicators, you can see the meeting space's availability from a distance.
