Valo Intranet Implementation

Create an engaging user experience leveraging Office 365

In a world of hybrid work and flexibility, businesses must have a secure and scalable intranet infrastructure that has the flexibility to adapt to changing business requirements. Valo Intranet is a cost effective and quick to implement modern intranet solution that enhances your existing Office 365 and SharePoint environment. Maximising your Office 365 investment, Valo intranet offers all the features your team will need – along with a beautiful user experience.

Insight's three phased implementation and support process drives Office 365, Teams and SharePoint adoption, and provides a comprehensive, consolidated intranet environment across your organisation. The Valo Intranet 8 Week Implementation covers design and deployment with ongoing managed support.

Drive more usage of Office 365, Teams and SharePoint by consolidating your intranet experience with Valo:

Design
User experience design for key components, including:

- 1x homepage mock-up design
- 1x Navigation mock-up design
- 1x content page mock-up design
- Search scope improvements design

Managed Support
- Ongoing Valo Intranet
- Full access to Insight's IT Service Management toolset gives customers the ability to view and manage tickets at any time.

Solution Implementation

- Implementation of the Valo Modern intranet with the Valo Adoption module
- Implementation of Valo Connect, surfacing the intranet in Microsoft Teams

Benefits:
- Robust intranet infrastructure
- Simplified Employee Experience and collaboration capabilities
- Gain visibility of intranet usage

Microsoft Partner of the Year
- 12 Advanced Specialisations in Azure, Modern Work & Security

Why Insight

4 WEEKS		4 WEEKS		4 WEEKS
Design	**Solution Implementation**	**Training**	**Launch**	**Maintenance, Upgrades and Support**
Explore and assess the desired state of the staff information and branding for the intranet. Investigate the context and users of the intranet to provide desired state information.	Provision, deploy and configure the intranet. This will largely be based off the outcomes of the design workshops.	This time will involve the handing over of the intranet, facilitating any user training and producing guides based on the implementation.	Release modern intranet to staff and initial support.	Ongoing Level 3 support provided by Insight's experts and scheduled updates of the Valo products.
