"QUOQO
LEGACY

Super-secure AI powered repository for all critical contracts and documents

Are you happy with your legacy contract management?

Do you worry about missing critical deadlines? Can you keep track of your contracts more efficiently?

With Quoqo Legacy, it's all taken care of for you, so you never miss a deadline or have issues searching for a contract again!

Contract Management is Critical

You've been tasked with managing a company's contracts, but you're not sure where to start.

After all, it can be challenging to keep track of all your contracts and obligations.

Not only do you have to track down all the relevant paperwork, but you also need to make sure that everything is stored securely and accessible when needed.

You're not alone. Most businesses have a lot of paperwork that they need to keep track of, and it can be tough to stay organized.

Wouldn't it be great to have a way to manage your contracts more efficiently?

What if you could search for what you needed when you needed it?

Conduct Business More Efficiently

With the right tools, you could conduct your business far more effectively while still keeping your contracts secured in a protected repository.

Imagine being able to pull out key clauses from your contracts, providing you with quick insight into your contracts at the click of a button.
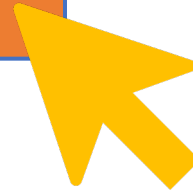

Even better, you can ensure that only those who need to access your contracts can do that with pinpoint precision.

You can even add custom notifications for critical contract dates and obligations, so you never miss a deadline ever again

If all of that happens, better management doesn't even matter if you're a small business or a large corporation. Instead, it means you've found the perfect solution to your contract management needs.

Quoqo Lets You Manage Your Contracts Easily

With QCM and QNDA combined with Quoqo Legacy, our Contracting Stack not only results in substantial savings for your business, but it also automates the entire contracting process.

It is the perfect solution!

Our secure repository makes it easy to store your contracts, and our AI automatically extracts key data, so you always have the information you need at your fingertips.

It becomes simple to manage your contracts thanks to the integrated search features.

Our intelligent search and extraction features make it easy for you to find the information you need, and our role-based access controls ensure that only authorized users can access sensitive data.

That means that our role-based access system ensures that only the right people have access to the information they need according to permissions you assign.

Your data is also organized the way you need it to be, and as you have new contracts to upload, you can upload them quickly and make them available immediately.

Sound good so far? It gets even better!

What Else Is Inside?

Inside Quoqo Legacy, not only can you keep your contracts secure and keep up with all of your obligations, but you'll also be able to…

Review contracts as needed with advanced search options

Catalogue contracts to keep them organized by type

Search for specific dates of execution by pre-determined tags

…and more!

With the built-in indexing, searching, extraction, and analytics all in one easy-to-use interface, you'll be able to pull up agreements, lease deeds, purchase agreements, and any other contracts you use.

All contracts finalized on QCM and QNDA are automatically synced with Quoqo Legacy making it possible to also search for future contracts for your customers.

When you have questions while using the Quoqo Legacy platform, you can also reach the Quoqo team directly from the dashboard to enter a live chat, make a phone call, or send us an email.

What Happens Next?

If you're interested in learning more about what Quoqo Legacy along with the rest of the Contracting Stack can do for you and your business, we suggest clicking below to set up an appointment.

We're happy to speak to you about your current struggles and how we can help you with better legacy contract management.
