Cloud Migration: Transition to a future proof infrastructure

Coforge provides comprehensive professional services to help enterprises migrate complex and critical applications to the cloud. Migration starts with a comprehensive strategy followed with detailed planning and strong technical execution.

CHALLENGES

- Inability to identify the starting point
- Unclear roadmaps for migration
- Bottlenecks in managing legacy applications
- Too much reliance on external vendor

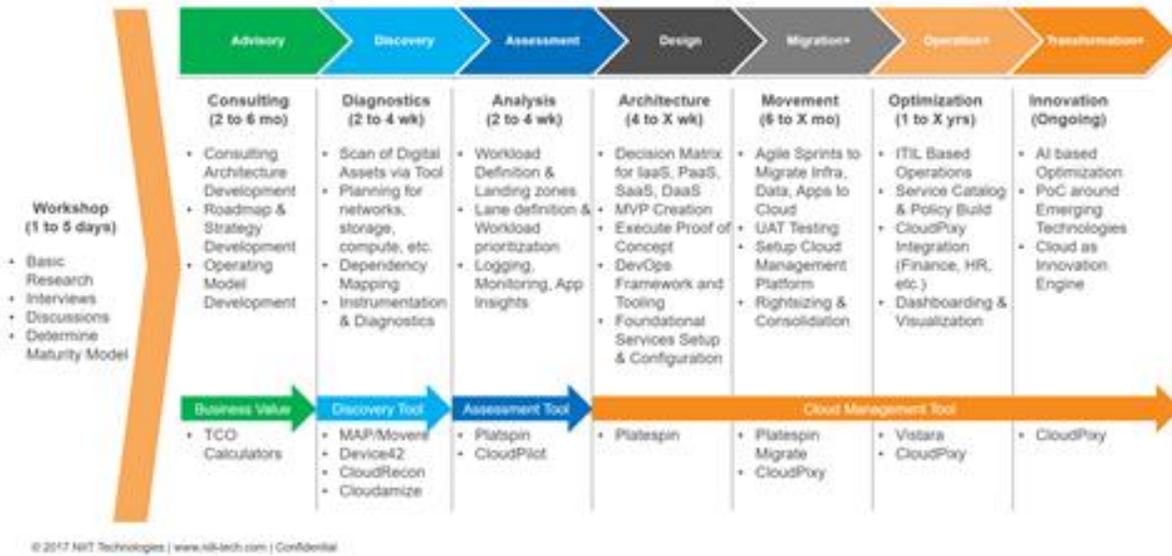

IDEAL SOLUTION

- Highly automated discovery and instrumentation of existing assets
- Business rules to estimate migration roadmap
- Technical Readiness, organizational readiness and business case development
- Engage in application assessment

DESIRED OUTCOMES

- Fast track application migration
- Modernize applications
- Agility & flexibility
- Future proof infrastructure

Migration Process & Tools

Coforge Limited

Cloud Migration Services

With numerous real-world, production, and enterprise cloud computing deployments to our credit, we understand that cloud computing can present both business and technical challenges. Our cloud migration services not only adapt IT processes and compliance procedures, but also ensure their effectiveness when applied to cloud infrastructure and applications

FUTURE-PROOF INFRASTRUCTURE

- Business value assessment
- Programmable infrastructure, service management, automation & integration
- Shared services via standardization & automation

CLOUD NATIVE APPLICATIONS

- API integration
- Legacy modernization
- Microservices enablement

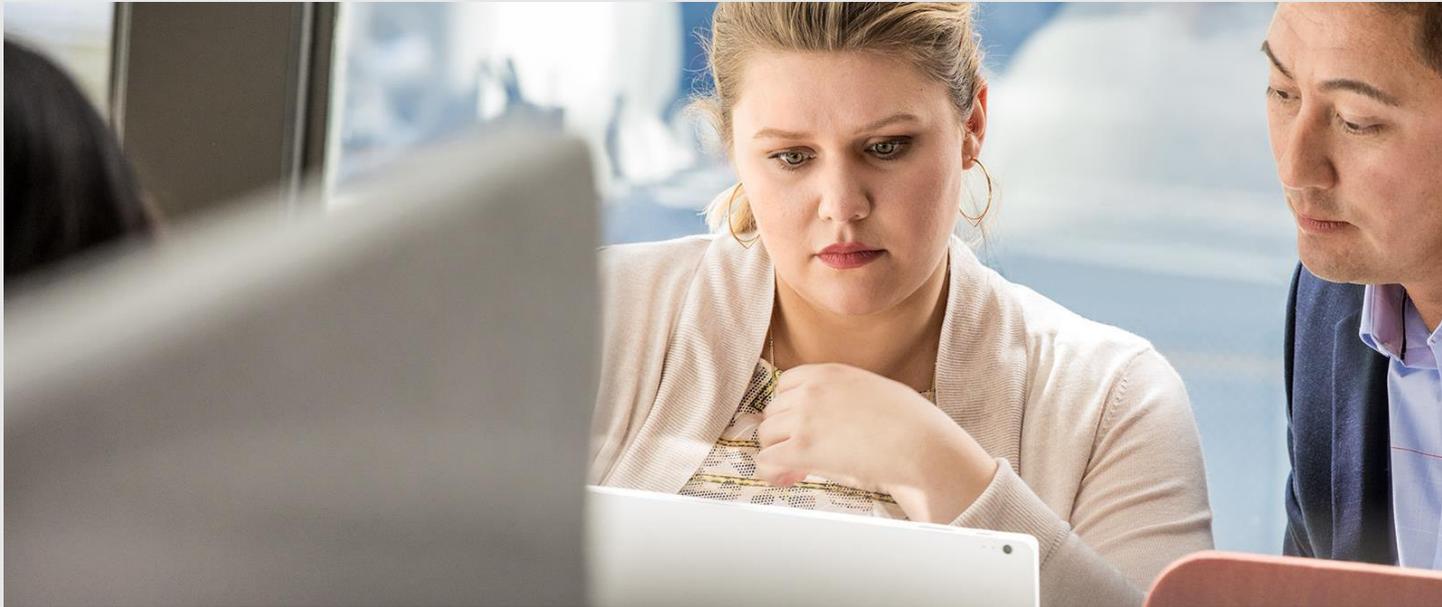

MICROSOFT AZURE INTEGRATION

- Coforge Technologies' cloud migration service leverages Microsoft Azure capabilities to help clients envision and reimagine the new cloud paradigm

Coforge uses Microsoft Azure for Cloud Migration Services

Coforge Technologies leverages Microsoft Azure capabilities to help clients envision and reimagine the new cloud paradigm. The 360 degree Cloud Partnership makes Azure the strategic partners for Coforge Technologies and provides pre-sales support, help in creating go to market strategies and accelerates the end to end process by allowing access to the tools required for working on cloud .

Coforge

AZURE MIGRATE

Azure Migrate provides a centralized system to track discovery, assessment, and migration of on-premises infrastructure, applications, and data to Azure. Coforge Technologies leverages Azure migrate for migrating data centers to Azure cloud along with servers and VDIs.

AZURE SITE RECOVERY

Coforge Technologies uses Azure site recovery for data recovery setups for large number of servers. Site Recovery helps ensure business continuity by keeping business apps and workloads running during outages. The Azure Backup service keeps your data safe and recoverable by backing it up to Azure.

 Microsoft

Customer success: Migrating data centers to public cloud for a large investment firm

A large investment firm based out of US, wished to reduce risks by having a business continuity solution in place. Coforge Technology successfully completed the migration task which included 700+ TB of databases, 250+ applications and 800+ enterprise systems with disaster recovery within a span of 12 months.

CAPEX TO OPEX

The clients managed to move their capital expenditure to operational expenditure and created a better cost model and predictable cash flow using Coforge Technologies' cloud migration services

AGILE METHODOLOGY

The clients benefited from Coforge Technologies working closely with their organizational process and were able to adopt agile in their organization

AGILITY AND FLEXIBILITY

The clients achieved agility and flexibility to provision infrastructure based on elastic demand and also, aligned resources to better address business demand and priorities
