

## Digital Transformation Workshop

### Workshop Overview

The Digital Transformation Workshop is driven by specific use cases our customers provide prior to the workshop. Customer provided use cases serve to focus the workshop discussion and lead to actionable design deliverables. The workshop includes the topics listed below, but other areas can be included by request.

### Workshop Areas Addressed

- |   |  |
|---|--|
|  Application Reviews               |  Source Code Management               |
