

NEXON CLOUD STRATEGY ASSESSMENT

Accelerating your organisation's cloud adoption.

As cloud adoption surges and organisations seek to gain the competitive advantages cloud services have to offer, new questions are raised. Which workloads or applications should be migrated to the cloud and how? What security and privacy factors should be considered? What are the best practices for cloud migration and governance?

The question remains, what is the best cloud strategy for your organisation to reap the benefits of agility, resource elasticity, efficiency, and IT Modernisation?

To help you answer these questions, we offer a complimentary Cloud Strategy Assessment designed to assist you to evaluate your technology strategy, existing business and infrastructure needs and provide a carefully tailored plan for your organisation to move to the cloud.

THE NEXON CLOUD STRATEGY ASSESSMENT PROVIDES:

A roadmap to meet your business requirements.

Application & Infrastructure landscape with recommended approach

Projected cloud cost and ROI identification

Actionable recommended approach for future cloud state

UNLOCK THE VALUE OF THE CLOUD

Drive business outcomes with accelerated cloud adoption and unlock:

Speed and agility

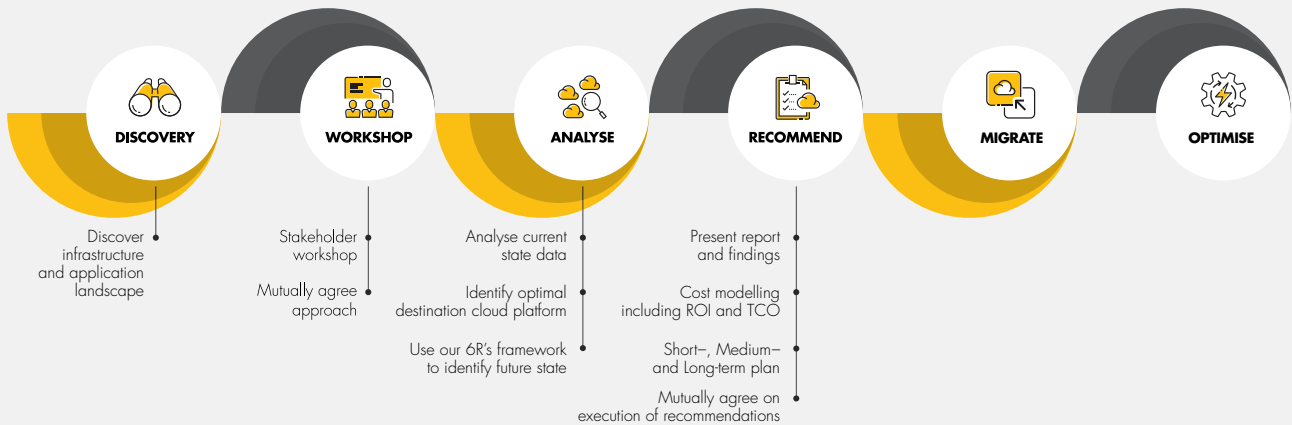

Adaptability

Scalability

Our four-stepped Cloud Strategy Assessment provides an end-to-end approach, designed to evaluate your current environment and includes: Discover, Workshop, Analyse and Recommend.

A SMARTER PATH TO SCALE.

As part of the assessment, we consider where your organisation is heading while building enough flexibility to adapt over time.

Following the assessment, Nexon can support and manage the recommended cloud migration, providing the appropriate scaffolding and architecture for your future state.

We help organisations to leverage the cost, security and productivity benefits of cloud applications and services.

LEVERAGING OUR EXPERTISE.

We help organisation optimise their cloud environment. Our unique customer engagement model and award-winning local team combined with our leading managed services, provides you with the peace of mind you need to innovate and digitally transform your business.

Our end-to-end consultancy and support make it easier to migrate, secure, protect, monitor, manage, support, and govern business critical data and applications. We give you the flexibility to adapt the cloud to your business requirements and guide you through the entire process at a pace that works for you.

LEARN MORE ABOUT OUR CLOUD SERVICES

At Nexon, we understand that the cloud can be daunting, so we leverage our skills and experience to provide standardised, automated and managed cloud solutions which bridge the gap between the promise and reality. We simplify complexity, guide at workable pace, and enable organisations to transform their technology operations to provide greater accountability, reduce costs and provide long term savings.

We make it easier to transform, migrate, secure, protect, monitor, manage, and govern business-critical data and applications.
