

# Teams Voice Jumpstart

Yorktel's Microsoft Teams Voice Jumpstart provides a cost-effective hands-on experience for your company to evaluate Teams Voice in your current environment.

In a hybrid workplace, we all want to know if something is going to work before we invest in it. Yorktel's Jumpstart program enables voice calling on Microsoft Teams. You will be able to determine network gaps, feature continuity, and determine a roadmap for your Microsoft Teams Voice System deployment.

### As per a Forrester Total Economic Impact Study:

Teams Calling **saves 1.25 hours per week per employee**, on average and has a **payback period of less than 6 months** after going live.

## Jumpstart your journey to simplified and unified voice

Get a thorough demonstration of Teams Voice in your environment, along with a strategy to transform voice communication in your company.

### Our delivery process

#### Assess

- Understand current telephony call flows and user productivity.
- Conduct network readiness assessment.

#### Envision

- Conduct design sessions based on future state telephony strategy.
- Define security requirements.

#### Proof-of-concept

- Acquire the required licenses and configure Teams Voice platform.
- Provide administrative training to the team.
- Deploy the pilot solution and provide training to end users.

#### Transfer

- Transfer the fully configured Teams Voice environment.
- Share the network readiness report and the workflow design for future telephony strategy.

Yorktel is a leading global provider of cloud and managed services for healthcare, large enterprise, and federal government customers
