

# Break the language barrier with carrier-agnostic VerbumCall™

Enhance the human experience one over-the-phone interpretation (OPI) at a time in 150+ languages. Our cutting-edge consecutive translation platform is the easiest way to deliver a truly inclusive experience.

**The best part: you just need a phone, no app required.**

Whether you are conducting an important business call with an overseas client or communicating with a friend or family member who speaks a different language, with VerbumCall, you will break through the language barrier.

Our patented AI technology will take care of translating the conversation for you, incorporating **context and sentiment** in real-time, delivering greater **than 95% accuracy**.

You no longer need to worry about the hassle of using language translation providers, apps, or any data services. VerbumCall functions independently of telecommunications providers, making it the perfect solution for anyone seeking to break down language barriers.

**Real-time OPI platform with almost no lag.**

VerbumCall is ideal for any conversation in any language in any situation where the other person's language and culture are different from your own.
