

# BOOST YOUR FARMING OPERATIONS WITH POWERFUL ANALYTICS

Reach economically and environmentally sustainable food production.

## AGRIVI 360<sup>®</sup> Farm Enterprise

Market-leading farm management software designed specifically to enable **large agri-business companies** to have complete control over complex farm operations through:

REAL-TIME FIELD INSIGHTS

DATA-DRIVEN DECISIONS

POWERFUL FARM ANALYTICS

# AGRIVI 360<sup>®</sup> Farm Enterprise

## BENEFITS

### CENTRALIZED FARM MANAGEMENT PLATFORM

A digital twin of your farm with **all your agricultural data and process management in one place**. Easily accessible anytime and anywhere, even offline.

### ADVANCED CROP PLANNING

Plan better and budget your season based on a **360 overview of agronomic, financial and operational plans** by crop, field and workforce.

### POWERFUL FARM ANALYTICS

Gain **deep insights from the fields in real time**, identify best practices and minimize risks. Optimize costs, improve yields and profitability.

### CONNECTED AND SYNCHRONIZED MACHINERY, IoT AND ERP

**Automate data exchange** with machinery and connect weather stations and soil sensors. Integrate ERP to **synchronize inventory** and costs of production.

### TRACEABILITY AND COMPLIANCE REPORTING

Ensure **complete crop production traceability** and secure **compliance with food quality, food safety and sustainability standards** with simple and fast reporting.

### GLOBAL COVERAGE WITH LOCALIZED SOFTWARE

A global multi-country, multi-farm, crop-agnostic solution. **Available in 15+ languages, all currencies and measurement units, with localized fertilizer and protection products database.**

Digitalize Your Farm Operations With AGRIVI.

## Global Leader In Digital Agriculture

AGRIVI is a specialized AgTech company and a global leader in farm management software. Our vision is to transform how food is produced by digitalizing agriculture and positively impact over a billion people.

### Market-Leading Farm Management Software

**AGRIVI 360** is a comprehensive suite of **powerful digital agriculture solutions** that provide real-time agronomic and economic insights throughout the entire food production process.

We empower **agri-food companies** in producing healthy, nutritious and safe food by applying sustainable and climate-smart agricultural practices.
