About Us

Trusted by thousands of businesses for over two 27 years, NexusTek, a national provider of managed IT services and full IT outsourcing solutions, offers a comprehensive portfolio comprising end-user services, cloud, infrastructure, cybersecurity, and IT consulting.

As a Microsoft Solutions Partner, NexusTek has earned a specialization in Modern Work. Ranked among the top MSPs in North America and a multi-year CRN Triple Crown Award winner, NexusTek's 24/7/365 domestically staffed support team designs holistic technology solutions to improve business continuity, productivity, operational efficiency, and cost-effectiveness for companies across the U.S., Canada, and Mexico.

As an SSAE 18 SOC II certified company, NexusTek conducts yearly rigorous security audits to ensure customer safety and provide optimal service.

Managed IT Services

As a subscriber to our managed IT services, you will benefit from our 24x7x365 proactive detection and resolution of IT and network issues through the use of cloud-based technologies, remote and onsite support, and advanced system management practices.

Cyber Security Services

Controlled, secure, consistent cyber security monitoring is your best defense against data breaches, information lock-downs and security threats. **NexusTek's** complete Cyber Security Services provide comprehensive threat evaluation, detection and prevention at every level, giving you the highest level of cyber security.

Cloud and Hosted Services

More and more organizations are moving to the "Cloud" and taking advantage of the increased convenience, decreased costs, and increased efficiency it brings to organizations. But what exactly is the "Cloud"? It refers to IT services and applications accessed via the Internet. These can be business software and email services, data storage and online backup, and other services which are fully monitored and delivered from a secure and reliable location.

Additional IT Services

NexusTek's Managed IT services and IT consulting team will skillfully assist your technology needs including remote workforce planning, multi-value support and services, disaster recovery plan development as well as various other IT projects that are vital to the success of your business. As one of the top IT services, cloud services and cyber security companies in the nation, we have the experience and expertise to help you meet your objectives.

Business Continuity

Microsoft For Business

MultiValue

Remote Workforce Development Planning

NexusTek is a Microsoft Partner that successfully implements Cloud & IT Services and CRM solutions.

Infrastructure

Education Loan Finance depends on NexusTek for a majority of their networking needs. From Cloud Solutions to Virtual Desktop Interfacing and several other solutions, ELFI partners with NexusTek to ensure operations are running efficiently and that technology is increasing productivity in the business.

Office 365

In 2012, Commercial Resins began to seek out a solution that transform the way they operated their business. They enlisted the help of NexusTek to deploy a cloud-based Microsoft Office 365 solution to address their collaboration and IT management problems.

Microsoft SharePoint

Roberts Cosmetics + Container is an international packaging company with employees in the United States (California and New York), China, and Korea and needed a solution that could be easily integrated with the already existing Microsoft management tools.
