**Product  
Discovery**

---

It empowers organization of your team's work improving performance by tracking and prioritizing the critical work that is part of your critical path to success.

Strategy-AI ensures you have everything you need to answer the question "How do I ensure that my team is working on the most critical items my project needs done" with confidence, while providing the necessary inputs you need to take decisive actions; while avoiding conflict and maintaining stakeholder satisfaction.

## Strategy-AI

---

improves your time to benefit and drive your success momentum.

# Integrating directly into the platforms you use

to bring real-time visibility of your plans to your teams reducing repeated conversations about what's in your critical paths to success, providing your staff with visibility on how the work they are doing drives you towards your milestones and is pushing your project initiatives forward.

# Easily spot ~~scope creep~~ and hidden work

from other projects and internal motivations creeping in to push you over budget and past your set delivery date.

Rest easy knowing any unnecessary, non-critical and nice-to-have work can be spotted hidden deep down in your teams.
