

SOLUTION TYPE

- Cloud ROI FinOps Accelerator

DELIVERABLES

- Cost Optimization Plan
- CloudBolt implementation
- Executive findings presentation
- Foundational cloud guidance
- Monitoring and reporting plan
- Remediation proposal
- Training & transition plan

SCOPE

- Resource discovery and analysis
- Cloud foundations assessment
- FinOps strategy workshop
- 2 weeks – Discovery and assessment
- 2 weeks – Remediation plan

TEAM

- Cloud Strategist
- Solutions Architect
- Business Analyst
- Senior Project Manager

ESTIMATE

- \$50,000 / 4-week engagement
- Tooling fees – based on # resources monitored

You can't manage what you can't see.

80% of IT leaders feel they have a limited view into cloud costs and cloud spend. - CloudBolt

FINOPS – CLOUD ROI ENGAGEMENT

Cloud Cost Optimization Accelerator

The acceleration of cloud adoption over the last decade has transformed IT from a cost center to an enabler of digital business, creating new business models and revenue streams.

However, this period of acceleration **has resulted in a lack of governance and cost accountability.**

With economic headwinds and uncertain times looming – organizations are getting serious about financial responsibility, resource visibility and cost management accountability.

SYMPTOMS OF CLOUD BLOAT:

- Cloud's promised ROI has not materialized
- Operating costs are unexpectedly high
- Environments are complicated and lack discipline
- Solutions experiencing performance or reliability issues
- Lack of policy and oversight to enforce best practices
- Undefined monitoring, archive and retirement process

JUMPSTART YOUR FINOPS STRATEGY:

- Gain visibility and an unbiased view on current spend
- Recommend optimizations and remediations
- Monitor deployed resources over time
- Tool-driven insights to inform FinOps strategy
- Accelerated baseline for collaboration across engineering, finance, technology and business teams
