

NAV to Business Central Migration Diagnosis: 4 day workshop

—

MIGRATION DIAGNOSIS

FUNCTIONAL SCAN

TECHNICAL SCAN

DIAGNOSE OUTCOME

Two experts from our team (functional & technical) will assess the current Dynamics NAV environment and will provide an action plan to move towards Business Central. Your main questions regarding budget, datamigration and approach will be answered.

Functional scan (2 days):

- Two workshops (4-8hrs) where we will handle the most important business processes in your organisation today and tomorrow. Besides business processes, our expert will also determine how and where Business Central will provide advantages within your organization.
- Our expert will gather and process all information in a compact analysis document and presentation

Technical scan (1,5 day):

- One workshop (4-8hrs) where our technical expert will assess the current application based on topics such as current customizations, 3rd party tools or addons, integrations and reports
- Our expert will gather and process all information in a compact analysis document and presentation

General presentation of all results and recommendations for your organization (0,5 day)
