# Turn every employee into a brand ambassador.

**B**oost My Mail is an innovative online solution that aims at strengthening the communication of your company drawing on daily e-mail signatures. 281 billion e-mails are sent every day in the world. With that in mind, imagine how all outgoing e-mails sent within your organisation could increase the impact of your communications!

## 1 Automate and deploy you e-mail signatures

With Boost My Mail, e-mail signatures are uniformly designed. Do not wait for your employees to update their e-mail signature anymore as a single administrator can easily do it online!

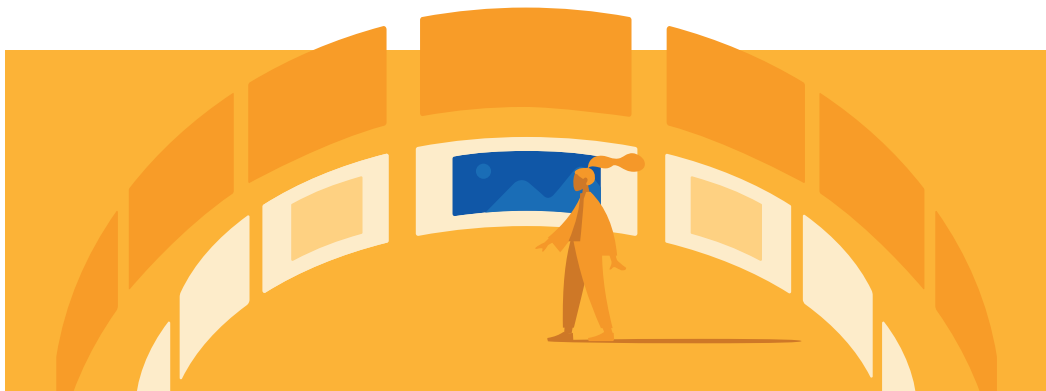

User information is synchronized in real time with your user directory. You can also assign several e-mail signatures to one person who holds several positions or represents several organisations.

## 2 Spread your communication campaigns

You can add banners about events, special offers or news, to the staff's e-mail signatures. It is an opportunity to target a special audience in a non-intrusive way.

Use every outgoing e-mail to communicate !

## 3 Measure the return on investment

With Boost My Mail you can measure the efficiency of your email signatures and communication campaigns.

You can check the amount of clicks generated on the links you inserted in the signatures. It is an indispensable tool to personalize your offers.

# It is now time to boost your e-mails !

## DID YOU KNOW ?

Boost My Mail helps you strengthen your brand image and spread your communication campaigns such as events or special offers. Using Boost My Mail will give you the opportunity to detect new business leads and partnership opportunities.
