

**HeiTech**

# Online auto subtitle generator

Generate auto-captioning, and translated subtitles for videos and audios with one click. Translate your subtitles to 70+ languages easily and accurately.

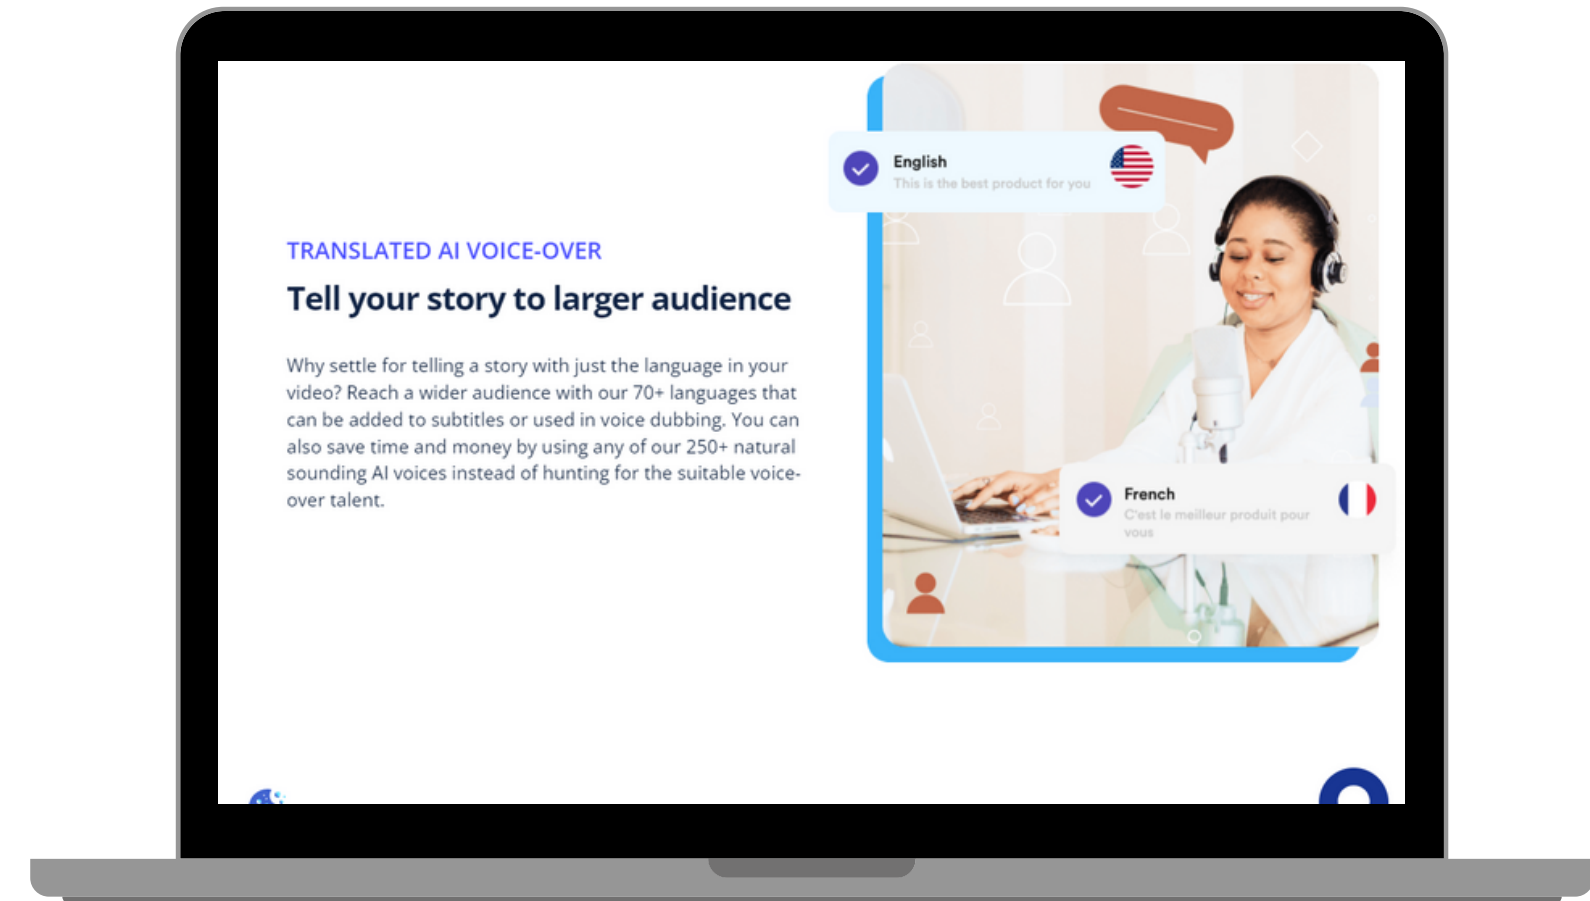

# Make videos more accessible for everyone

Research shows that videos with captions on online platforms get significantly more engagement than videos without subtitles. The Hei subtitle generator is the #1 tool for generating original subtitles for your videos as well as translating the original subtitles to other 70+ languages. We support a number of video formats and sizes, for free!

***No more wasting time creating manual subtitles for videos and audios!***

# What's different about Hei?

## Easy to use

Super easy to create and edit videos. Easily paste the online link of videos to repurpose the content from the internet.

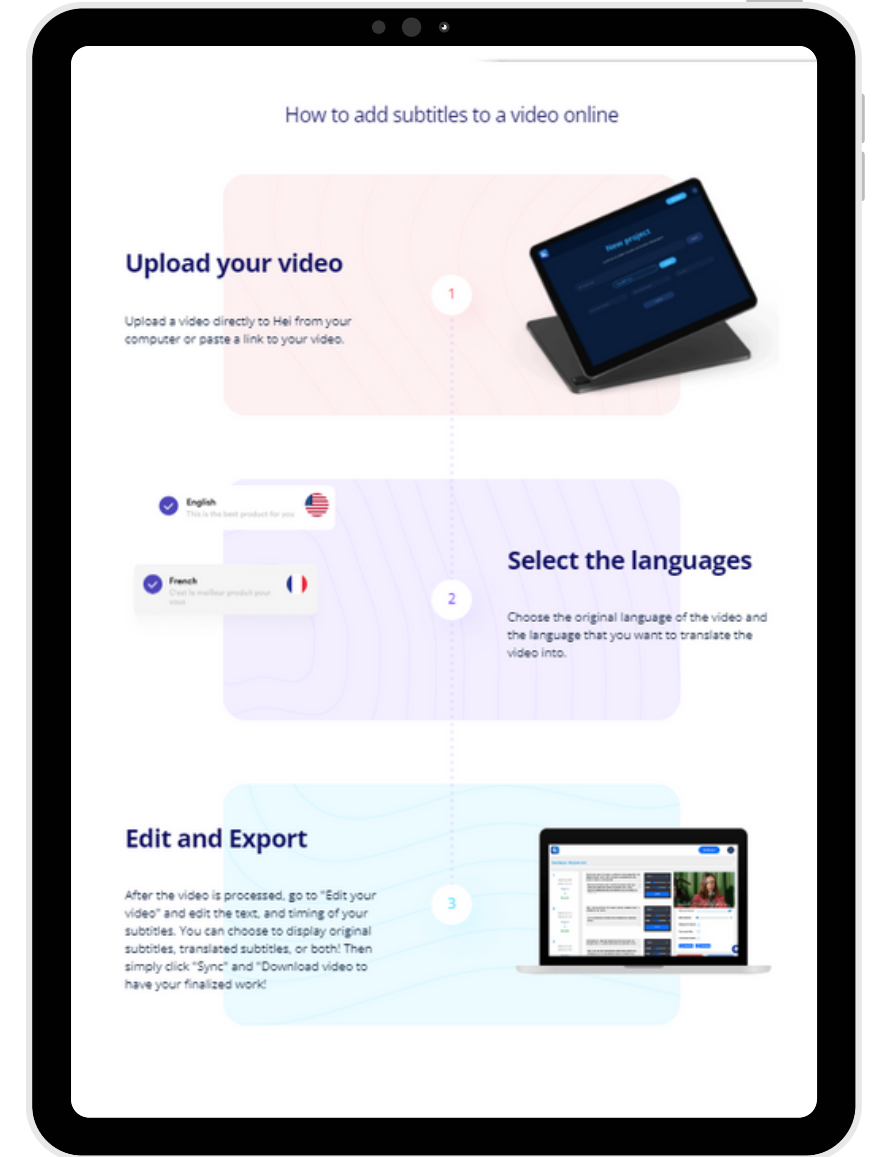

## Fast and accurate

It takes minutes to generate subtitles for videos. You don't have to manually add the timing for subtitles.

## Online

Hei is cloud-based, which means you can easily get access to the videos wherever you are. You and your team can also easily collaborate by sharing the cloud-based account.
